**The Noir Atlantic** Pim Higginson, 2011 The *Noir Atlantic* follows the influence of African American author Chester Himes on Francophone African crime fiction In 1953 Himes emigrated to Paris he struggled there just as he had in the United States In 1957 his luck changed the famous French *Série noire* brought out the first installment of his Harlem crime series *La reine des pommes* Suddenly he was a household name in France Later he would also have a significant influence on Francophone African writers for them Himes's blend of absurdist humor and violence offered an alternative to a high literary paradigm implanted during the colonial era Likewise his heterogeneous identity as American black and a writer of French bestsellers modeled an escape from the centripetal pull of the *Métropole* Starting with Abasse Ndione's depictions of Senegal's marijuana smoking subculture in *La Vie en spirale* 1982 and ending with Mongo Beti's 2001 *Branle bas en noir et blanc* set in Yaoundé Cameroon Francophone African crime fiction rejected French criteria of literary success it embraced a new postcolonial aesthetic that emphasized entertaining the reader while making a living The *Noir Atlantic* demonstrates why turning to what this study calls a frivolous literary mode represented a profound shift in perspective that anticipated more recent developments such as *littérature mondiale*

**Doing Business in Today's India** Douglas Bullis, 1998-01-13 As the world business climate globalizes and national economies become closely interlinked India looms as the largest country in the world to embrace the market economy Bullis maintains that not only will India be changed by international market forces it will have a significant impact upon the world economy as it emerges as a mass consumer market and an extended low cost manufacturing center But India has problems that pose difficulties for offshore investors Only with a clear idea of Indian business thinking and the relationship of commerce to India's complex mix of traditional caste and religious practices can businesspeople from the West gain any real hope of success This work provides the sort of far reaching information and advice essential for international businesspeople and for researchers and scholars in the academic community who want to be a part of India's economic future Bullis asserts that Indian businesspeople are far more knowledgeable about international markets than most international businesspeople are about India Yet India's long period of

socialist dormancy produced very different concepts of management employee relations the role of competition marketing finance and business government relations All these factors will play critical roles in the success or failure of investment plans formulated outside India s borders Moreover Indian people have a more diverse and compartmentalized culture than any other people posing a marketing challenge and challenges of other kinds that outsiders may be ill equipped to handle Bullis s descriptions and analyses of the Indian economy social structure history and business practices will provide the kind of understandings that Westerners need to enter the Indian market and compete successfully **Sales New Normal**
