Elias, Joseph J. Ferrito, Dominic C. Moceris, 2015-12-14

To better serve the whole child look at the whole report card Students are more than their academic grades you know it and their parents know it The progress they make in social emotional learning and character development is essential to their success in school and in life But while educators have made great strides in improving grading for academic achievement we've left too many teachers still guessing when it comes to outdated behavior ratings and comment sections That's where this book comes in Grounded in research and in the author's work with teachers and administrators it offers guidance on retooling report cards to better reflect the whole child integrating SEL and CD into any school or district wide grading system Resources include Guided exercises for analyzing existing report cards Samples and suggested report card designs Tips on improving communication with parents Case studies highlighting common challenges Testimonials from teachers and students When you take report cards to the next level you make sure that communication reflects all of the important characteristics of success and ensure that students develop the skills they need for the future This book brilliantly illuminates the key role played by social emotional learning in each student's development and it challenges the tradition of relegating the SEL EQ observations to the back of the report card If we want to develop better communities this book shows the way Dr Neil MacNeill PhD EdD Head Master Ellenbrook Independent Primary School The ultimate goal of misbehavior is attention

When children don't get the attention they need through the proper behavior they will get it any way they can. Children want to be loved and cared about. SEL will help them to learn the proper ways to get attention. It will also help teachers better understand the misbehaviors and redirect students toward positive behavior. Pamela L. Opel, Teacher Intervention Specialist, Gulfport School District.

So aligning our instruction should be a snap. If only it were that simple. Jim Burke anticipated the challenges and developed the Common Core Companion series for K-12. It's all here, page by page. The standards for literature and informational texts put side by side for easier planning. More than a dozen teaching ideas for each standard. Our guide offers tips and tricks to be proficient while still absorbing the information needed to succeed. Students will learn how to take the best notes, time management skills and the low down on sleep, caffeine and food. You'll learn how to write better papers, how to take tests more efficiently and how to be a better reader. If you're struggling with studying techniques that take up your time and energy, look no further. This comprehensive guide is your key to getting the grade with the least amount of effort.
