Baron, 2015-01-09

People have been reading on computer screens for several decades now predating popularization of personal computers and widespread use of the internet But it was the rise of eReaders and tablets that caused digital reading to explode In 2007 Amazon introduced its first Kindle Three years later Apple debuted the iPad Meanwhile as mobile phone technology improved and smartphones proliferated the phone became another vital reading platform In **Words Onscreen** Naomi Baron an expert on language and technology explores how technology is reshaping our understanding of what it means to read Digital reading is increasingly popular Reading onscreen has many virtues including convenience potential cost savings and the opportunity to bring free access to books and other written materials to people around the world Yet Baron argues the virtues of eReading are matched with drawbacks Users are easily distracted by other temptations on their devices multitasking is rampant and screens coax us to skim rather than read in depth What is more if the way we read is changing so is the way we write In response to changing reading habits many authors and publishers are producing shorter works and ones that don't require reflection or close reading In her tour through the new world of eReading Baron weighs the value of reading physical print versus online text including the question of what long standing benefits of reading might be lost if we go overwhelmingly digital She also probes how the internet is shifting reading from being a solitary experience to a social one and the reasons why eReading has taken off in some countries especially the United States and United Kingdom but not others like France and Japan Reaching past the hype on both sides of the discussion Baron draws upon her own cross cultural studies to offer a clear eyed and balanced analysis of the ways technology is affecting the ways we read today and what the future might bring **Contemporary Issues in International Arbitration and Mediation: The**

Fordham Papers (2013) Arthur W. Rovine, 2014-10-02 The 2013 volume of *Contemporary Issues in International Arbitration and Mediation: The Fordham Papers* is a collection of important works in the field written by the speakers at the 2013 Fordham Law School Conference on International Arbitration and Mediation The 25 papers are organized into the following six parts Keynote Presentation by Gabrielle Kaufmann Kohler Part 1 Investor State Arbitration by Andrea K Bjorklund Rudolf Dolzer Abby Cohen Smutny John Townsend Part 2 Class Actions and Mass Claims by James Carter John Crook Christopher Drahozal Veijo Heiskanen Sandrine Giroud Roman Khodykin S I Strong Part 3 Arbitration of International Disputes on Energy Issues by Arif Ali Nigel Blackaby Caline Mouawad Sarah Vasani Part 4 Investor State Arbitration 2 by O Thomas Johnson
