Oracle Cloud ERP Reporting: OTBI, BI Publisher, Smart View & Fusion Analytics for Finance 2025 Author:1 Bidisha Goswami Author:2 Prof. Dr. Moparthi Nageswara Rao, PREFACE In the fast evolving landscape of enterprise finance, the shift to cloud based ERP platforms is not just a technological upgrade; it's a strategic imperative. As businesses seek agility, compliance, and real time insights, financial reporting has emerged as a cornerstone for effective decision making. Oracle Cloud ERP, with its suite of advanced reporting tools, stands at the forefront of this transformation, enabling finance professionals to harness the power of data for both operational and strategic advantage. This book is born from a growing need in industry: a practical, structured, and in depth guide to the financial reporting ecosystem within Oracle Cloud ERP. While many resources introduce individual tools in isolation, few bring them together in a way that mirrors real world usage. This volume bridges that gap by offering an integrated understanding of OTBI, BI Publisher, Smart View, Financial Reporting Studio (FRS), and Fusion Data Intelligence (FDI). It explains how these tools complement each other and how organizations can blend them for comprehensive, scalable, and automated reporting workflows. Each chapter delves into one major component of the reporting framework: From designing pixel perfect reports and dashboards to implementing data security, automating ESS jobs, and exploring emerging trends in AI powered forecasting. This book equips readers with both foundational concepts and advanced strategies. Whether you are a finance manager, report developer, ERP consultant, or IT leader, the content is curated to guide you in making informed tool selections, architecting robust reporting environments, and anticipating the future of financial analytics. The journey through these chapters reflects not only the capabilities of Oracle's reporting stack but also the broader movement toward intelligent, hybrid, and explainable finance systems. As the digital finance function continues to evolve, this book aims to serve as both a reference and a roadmap. We extend our gratitude to professionals, academics, and Oracle practitioners who have contributed their knowledge to the development of this text. May this book empower you to harness the full potential of Oracle Cloud ERP for transparent, timely, and transformative financial reporting.
