

Rainbow Guided Meditation

By Kelsey Torgerson Dunn, MSW, LCSW
Compassionate Counseling St. Louis

Walkthrough:

Start off lying flat on your back. Gently close your eyes.

Take three deep breaths, in through your nose... and out through your mouth. Two more, in... and out. Last one, slowly in... and out.

I want you to imagine in your head that you're floating on a cloud. Imagine how nice, warm, and fluffy the cloud feels supporting your body.

Imagine that cloud taking you up, up, up in the sky until you find a rainbow. You feel safe and warm on that cloud. Imagine that rainbow slowly floating around you, and as each color travels over your body, your muscles feel nice and warm and relaxed.

Red

First, imagine that red color floating in front of you, and then traveling over your head, your neck, your shoulders, and down your arms, letting all of those muscles feel warm and relaxed.

That red travels into your heart, warming it up, and then down to your belly, the fronts of your legs, the backs of your legs, all the way down to your toes. Take a big breath in... and a big breath out. Feel that nice, warm red relaxing all of your muscles.

Orange

Next, imagine that orange color, traveling over your head, your neck, your shoulders, and down your arms. That orange travels into your heart, and your belly, your legs, all the way down to your toes, making your whole body feel relaxed. Take a big breath in... and a big breath out. Feel that nice, warm orange relaxing all of your muscles.

Imagery, Ritual, and Birth

Anna M. Hennessey, 2018-12-11 Every human being is born and has gone through a process of birth
Yet the topic of birth remains deeply underrepresented in the humanities overshadowed by a scholarly focus on death
This book explores how imagery is used ritualistically in religious secular and nonreligious ways during birth through analysis of a wide variety of art iconography poetry and material culture
Objects central to the book's study include religious figurines paintings about birth

and other items representative of pregnancy crowning or giving birth that have an historical or original meaning connected to religion Contemporary artists are also creating new art in which they represent birth and mothering as nonreligious events that are sacred or divine Framed through the concept of social ontology which examines the nature of the social world and studies how people create meaning out of the various objects images and processes that make up human social life the book theorizes a social ontology of birth focusing on how the meaning of imagery undergoes metamorphosis between the spheres of religion secularity nonreligion and the sacred when used during birth as a rite of passage Included in the study are more than thirty images of birth some of which have never been written about before Best Holistic Life Magazine March Issue
