

How to Make Slime

Goal – To make messy, gooey slime to play with.

Ingredients

- 1 cup of corn starch.
- 3 drops of food dye.
- Water.

Equipment

- 1 large bowl.
- 1 jug.
- 1 cup.

Method

1. Pour the cornstarch into the bowl.
2. Add a small amount of water to the bowl, stirring continuously.
3. Continue adding water until the slime becomes a gooey texture.
4. Add the drops of food dye into the slime and continue to stir until the dye is evenly mixed in.
5. Allow the slime to set for 10-15 minutes.
6. Enjoy your slime!

Suggestion

Wear gloves when making your slime to prevent getting food dye on your hands.

Collecting for the Curriculum Amy J.

Catalano,2015-09-28 If you re a librarian charged with collecting curriculum materials and children s literature to support the Common Core State Standards then this book the only one that offers explicit advice on collection development in curriculum collections is for you While there are many publications on the Common Core for school librarians and K 12 educators no such literature exists for curriculum librarians at the post secondary level This book fills that gap standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards CCSS The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices The book begins with a primer on the CCSS and how curriculum librarians can support them Discussion of the Standards is then woven through chapters arranged by content area that share research based practices in curriculum development and instruction to guide you in curriculum selection Material types covered include games textbooks children s literature primary sources counseling and nonfiction Additional chapters cover the management of curriculum collections testing collections and instruction and reference as well as how to support and collect for special needs learners Current practices in collection development for curriculum materials librarians are also reviewed The book closes with a discussion of the future of curriculum materials **The Language of Schooling** Mary J.

Schleppegrell,2004-04-26 This book is about how language is used in the context of schooling It demonstrates that the variety of English expected at school differs from the interactional language that students use for social purposes outside of school and provides a linguistic analysis of the challenges of the school curriculum particularly for non native speakers of English speakers of non standard dialects and students who have little exposure to academic language outside of schools **The Language of Schooling A Functional Linguistics Perspective** builds on current sociolinguistic and discourse analytic studies of language in school but adds a new dimension the framework of functional linguistic analysis This framework focuses not just on the structure of words and sentences but on how texts are constructed how particular grammatical choices create meanings in the different kinds of texts students are asked to read and write at school **The Language of Schooling A Functional Linguistics Perspective** provides a functional description of the kinds of texts students are expected to read and write at school relates research from other sociolinguistic and language development perspectives to research from the systemic functional linguistics perspective focuses on the increasing linguistic demands of contexts of advanced literacy middle school through college analyzes the genres typically encountered at school with extensive description of the grammatical features of the expository essay a gatekeeping genre for secondary school graduates reviews the grammatical features of disciplinary genres in science and history and argues for more explicit attention to language in teaching all subjects with a particular focus on what is needed for the development of critical literacy This book will enable researchers and students of language in education to recognize how the grammatical and discourse features of the language of schooling construct the content areas role relationships and purposes and expectations of schools It also will enable them to better

understand the nature of language itself and how it emerges from and helps to maintain social structures and institutions and to apply these understandings to creating classroom environments that build on the strengths students bring to school

Kids in the Kitchen Katherine Scrapper, Katie Kjelland, Rhiannon Alberry, Maria Rodriguez, Quentyn Tilcock, 2011

Procedural Text **Unity and Diversity in Language Use** Kristyan Miller, Paul Thompson, 2006-01-23 The papers in this collection drawn from the 34th Annual Conference of the British Association for Applied Linguistics reflect a number of different perspectives within the field of applied linguistics at the start of the twenty first century While addressing the theme of unity and diversity each paper prompts critical reflection on tensions within the discipline between stability and change consensus and controversy similarity and variation The interpretation of language use is broad and varied taking both macro and micro perspectives Topics addressed range from issues of global communication in a world of shifting demographics and technological advances to analyses of specific contexts of interaction both professional and personal Contexts of language use frequently coincide with settings of language acquisition both within and beyond the language classroom and this opens up discussion of the focus scope and appropriateness of research stances in applied linguistics and practices in language pedagogy Furthermore variation is considered from a number of social cultural gender related linguistic and discourse perspectives calling into question terminology definitions and the nature of evidence at the heart of applied linguistic theory and practice

Enabling Praxis, 2008-01-01 In a range of professions professional practice today is under threat It is endangered for example by pressures of bureaucratic control commodification marketization and the standardisation of practice in some professions In these times there is a need for deeper understandings of professional practice and how it develops through professional careers Enabling Praxis Challenges for education explores these questions in the context of initial and continuing professional education of teachers It presents a theory of the development of praxis morally committed action oriented by tradition to show the ways

praxis is enabled and constrained by the cultural discursive material and social political conditions under which professional practice occurs. It introduces the notion of practice architectures to show how particular conditions for practice shape the possibilities of praxis. The way these processes work is illustrated by detailed exploration of a number of cases of praxis development in a variety of educational settings at a variety of levels in teacher education for schools and for vocational education and training in the continuing professional education of teachers in educational administration and in informal community based education for sustainability initiatives. The book provides conceptual resources that permit deeper analysis of the character, conduct and consequences of professional practice. It concludes with challenges for education and for initial and continuing teacher education suggesting that the contemporary threats to education as a professional practice call for revitalisation of the profession, professional bodies and the intellectual traditions that orient and guide educational practice.

English as a Second Language in the Mainstream Constant Leung, Christine Davison, Bernard Mohan, 2014-07-15

Since it was first established in the 1970s, the Applied Linguistics and Language Study series has become a major force in the study of practical problems in human communication and language education. Drawing extensively on empirical research and theoretical work in linguistics, sociology, psychology and education, the series explores key issues in language acquisition and language use. English as a Second Language learners are now a considerable and increasing part of the mainstream of urban schools in English speaking countries. Beyond the learning of English, this development raises broader questions of language as a medium of education in a multilingual, multicultural environment. Drawing on their experience as researchers and educators in Australia, Canada and England, the authors of *English as a Second Language in the Mainstream* present an up to date account of advances in theory and practice. Their analysis of system wide provision, however, suggests that a truly responsive educational vision is lacking: government policy is inadequate, educational practices for ESL students are either underdeveloped or poorly coordinated with practices for other students and the rhetoric of reform fails to engage significantly with issues of teaching and resources. The authors argue towards a more comprehensive vision which can acknowledge the relation between issues concerning ESL students and issues concerning the educational system as a whole, which can coordinate reforms in ESL education with general reforms which can explicitly and systematically integrate language learning and content learning and which can build more positively on the multilingual and multicultural nature of modern education for all students.

Teaching Climate Change to Children Rebecca Woodard, Kristine M. Schutz, 2024

Teaching Climate Change to Children describes the journey of two literacy researchers to learn about climate change and support relevant literacy pedagogy for young children, pre-K to 6. The authors argue that climate change and social justice are inextricable from each other, that children in the younger grades are capable of learning about climate change and that reading, writing and language study is well suited to this work. Three anchoring themes are offered to support literacy climate pedagogy: interconnectivity, relationality and action, with rich classroom examples and different entry points to engage with

these themes either by starting small or going big The text includes chapters on the importance of taking an emotionally affirming stance and on the potential of incorporating arts based methods With love for the Earth and one another at its core this accessible book takes a broad view of what it means to cultivate sustainable futures for our planet for teachers and for children in today s schools Book Features A unique focus on teaching about climate change to young children as opposed to adolescents Insights drawn from a yearlong teacher inquiry group with classroom teachers and from literacy methods courses with preservice teachers Explicit attention to the importance of humanizing and care based practices in literacy climate pedagogy Classroom examples collected across four urban public schools where teachers used the activities and resources discussed in the book User friendly textboxes with suggestions and questions to guide discussion reflection and action
