Grammar and Lexis of Conversational Informal English in Advanced Textbooks María Dolores Fernández Gavela, 2015-04-01 The Grammar and Lexis of Conversational Informal English in Advanced Textbooks defends the view that the acquisition of conversational English depends highly on the kind of materials available to L2 learners The need to acquire a proficient competence in English is growing exponentially in an incessantly demanding society but it is the oral skill and more specifically the ability to communicate in everyday situations that learners are calling for The current learning process nonetheless is not particularly effective as is shown in the data collected by the Eurobarometer and published in June 2012 which shows that only 38% of the Europeans surveyed were able to maintain a conversation in English although 67% believed it to be the most useful language to learn for personal development The present study supports the idea expressed in The Common European Framework of Reference for Languages which states that a language is learnt reactively following the instructions and carrying out the activities prescribed for them by teachers and by textbooks 2001 141 Consequently these materials should reflect the everyday use of informal discourse and allow learners to analyse understand and interpret the different underlying messages conveyed by means of lexico syntactic as well as paralinguistic elements The book is divided into seven chapters in which various different linguistic aspects of conversation are dealt with In the opening chapters spoken language is presented and approached as a multidimensional entity particularly as the sum of lexico syntactic and socio linguistic elements The following chapters provide a description of the main characteristics of conversational English based on corpus informed grammars and publications The final chapter analyses twenty ESL textbooks in order to determine how corpus data has influenced the materials designed for the acquisition of conversational discourse *Cambridge English: Proficiency (CPE) Masterclass: Answer Key Booklet* Kathy Gude, Michael Duckworth, Louis Rogers, 2012-08-23 Answer key for all the exercises in the Student's Book **The Routledge Handbook of Metaphor and Language** Elena Semino, Zsófia Demjén, 2016-11-03 The Routledge Handbook of Language and Metaphor provides a comprehensive overview of state of the art interdisciplinary research on metaphor and language and maps out future directions of research and practice in a variety of contexts in this field Phraseology in Multilingual Society Elena Arsenteva, 2014-03-17 This unique volume showcases the best presentations of the international conference Phraseology in Multilingual Society held at Kazan Federal University Russia in August 2013 The twenty seven essays included here represent different research efforts by specialists in phraseology from around the world The book reflects numerous different aspects of phraseological research including those from semantic pragmatic and comparative fields of study Furthermore the volume also presents an investigation of some practical problems of paremiology and phraseography Proficiency Masterclass: Student's Book Louis Rogers, Kathy Gude, Michael Duckworth, 2015-04-30
