Law Enforcement in the Age of Black Lives Matter Dwayne A. Mack, Sandra E. Weissinger, 2017-12-29 There is a reason why people claim great respect for officers of the law the job by description is hard if not deadly It takes a certain kind of person to accept the consequences of the job seeing the very worst situations on a regular basis and knowing that one's life is on the line every hour of every day Working in law enforcement is emotionally and psychologically draining It affects these public servants both on and off the job Said plainly shaking an officer's hand when you see them or posting a sign in the front yard that reads Support the Badge is lip service Even going as far as to donate money to a crowdsourcing fundraising site does little to support the long term professional development needs of officers These are surface level signs of solidarity and do little in terms of showing respect for the job and those who do it For those who want to do more this text provides reasons and a rationale for doing better by these public servants Showing respect does not mean that one agrees

with whatever another person or institution claims to be the right way Showing respect and admiration means that we charge individuals to live up to their fullest potentials and integrate innovation wherever possible In the case of policing in the era of Black Lives Matters policing as usual simply is not an option any longer It is disrespectful to both the officers and those who are being policed to rest on the laurels of past policing tactics As we enter a time period in which police interactions are recorded dash cams or body cams for example and new populations are being targeted Latinx people there is much to learn about what is working and what is not

Schneider, 2024-10-31 Policing and Social Media Social Control in an Era of Digital Media investigates various public aspects of the management use and control of social media by police agencies in Canada This book aims to illustrate the process by which information technology namely social media and related changes in communication formats have affected the public face of policing and police work Christopher J Schneider argues that police use of social media has altered institutional public police practices in a manner that is consistent with the logic of social media platforms policing is changing to include new ways of conditioning the public cultivating self promotion and expanding social control Every chapter in this second edition has been updated with contemporary examples and analysis Each case study presented here focuses on a different social media platform or format while at the same time developing suitable analytical and methodological approaches for understanding contemporary policing practices on social media sites

The Secret Files: Bill Deblasio, The NYPD, and the Broken Promises of Police Reform Micheal Hayes, 2025-05-13 An unprecedented breakdown of the NYPD's powerful

network of police unions pro police lawyers and top brass who work relentlessly to shield police officers from any real accountability For readers of long form hard hitting journalistic exposés like *We Own This City* a compelling look at how we do and don't hold police responsible in America by an award winning progressive reporter covering the NYPD police beat In 2018 reporter Michael Hayes uncovered a major story about how the NYPD was not only turning a blind eye to police misconduct but also allowing hundreds of officers with severe misconduct charges to remain on the force In the aftermath of that story then Mayor Bill de Blasio attempted to reform the department only to abandon his plans While de Blasio may have suffered a political setback it's New Yorkers who are the true victims of this failure to deliver accountability and transparency The state has a law that specifically prevents the public from learning about concealed police records New Yorkers are increasingly distrustful of the police after witnessing their loved ones being targeted brutalized and murdered with near impunity Hayes takes readers inside decades of police corruption and controversial laws chronicling the stories of the families and activists who have had enough He makes a compelling case for the limits of reform in the aftermath of the major Black Lives Matter rallies following the murder of George Floyd and growing calls to defund the police

Crime and No Punishment Marie Gottschalk, 2025-11-18 How concentrated economic and political power in America protects elites and fosters violence of all kinds The United States is an exceptionally violent country increasingly unable or unwilling to stem violence in its many forms A growing corporate crime wave has gone unprosecuted and unpunished with those in the C suites largely escaping accountability Meanwhile the country has doubled down on pursuing people accused of street and drug crimes and immigration offenses Corporate impunity the financialization of the economy militarized policing the burgeoning carceral state and the forever wars in Afghanistan Iraq and elsewhere all have fostered corporate economic and state violence in America In *Crime and No Punishment* Marie Gottschalk argues that these developments have undermined the legitimacy of American political and economic institutions Gottschalk analyzes how the concentration of economic political and military power has siphoned off vital resources preying on the most vulnerable communities and normalizing violence and death It has kept America from attacking the root causes of violent street crime and curtailing deaths of despair from suicide alcoholism drug overdoses and chronic diseases The United States continues to incarcerate more of its people than nearly every other country even as it decriminalizes or turns a blind eye to elite level corporate crime Public and scholarly attention however remains fixated on violent street crime although corporate and white collar crime and state and economic violence directly and indirectly hurt far more people in the United States Gottschalk contends that the US failure to protect its people from these harms has increased the fragility of democracy in America
