Receptionist Handbook

RECEPTIONIST HANDBOOK

This Front-Line Staff and Reception Service Agreement describes the protocols and procedures we have in place at (Company) for front-line and reception staff to ensure that the duties and protocols of the job are clearly understood and that the customer experience is the best it can be.

OUR CUSTOMER SERVICE GUIDELINES & PROTOCOLS

GENERAL

Front line staff and reception staff who deal with the public are expected to dress neatly and professionally.

MOBILE DEVICES - Outside of breaks and lunch, use of mobile devices (including but not limited to cell phones, smartphones, and tablets) for texting or any other electronic chat function, personal conversations, internet access, or any other personal purpose is not allowed under any circumstances unless it is an urgent matter. It is not in the Company or the customer's best interest for our staff to use their mobile devices while at work. Your mobile device must never be used, displayed, or make sounds during working hours.

URGENT CALL-If someone needs to get in touch with you for an urgent matter; they are welcome to call the main switchboard at any time. If they cannot get hold of anyone, they are welcome to call {ENTER PERSONS NAME} on their cell phone {CELLPHONE NUMBER} and they will be happy to pass on the message immediately.

Outside of lunch and breaks, PERSONAL USE OF COMPANY COMPUTERS, INTERNET, OR ANY OTHER COMPANY EQUIPMENT IS NOT ALLOWED UNDER ANY CIRCUMSTANCES. It is not in the Company or the customer's best interest for our staff to be working on personal matters while at work.

GUM -The presence of chewing gum should not be known by others.

DEALING WITH WALK-IN VISITORS

Acknowledge and welcome a visitor or customer as soon as you can. Even if you are on the phone, make eye contact, smile, and try to communicate non-verbally that you are aware they are there and you will be right with them.

CUSTOMER GREETING - When greeting a customer, or answering the phone, always, always smile and warmly say "hello." Try to find an anchor point to make a conversation connection. If you cannot find an anchor point, it's best not to fake it. Disingenuous conversation or small talk can be a turn off for some customers and it may be best to keep it professional. Use your judgment, but the default is always to warmly ask them "How can I help you today?"

ATTITUDE -Be friendly, professional, and calm at all times — and smille! We want customers to feel good when they are dealing with us. Your attitude is important. It says a lot about the Company and largely determines whether the person in front of us will become a repeat customer.

Even if you are having a bad day, it is your job is to ensure that customers are not aware of it and are dealt with in a positive manner at all times. Customers prefer not to hear about or feel negative energy from us. Sharing negative feelings or situations with customers is not appropriate. If you need to speak with

Zeigler, Gary W. Bowie, 2007-08-24 The introduction of this combined text and laboratory workbook with its tear out sheets on which to complete specific experiences is a first in the field It can be employed either by itself or in connection with a standard text that has limited or no practical exercises included If desirable also the instructor could amplify what is offered here by the addition of other laboratory experiences developed from the listing in Part I of well over 100 desirable experiences under the five broad categories included A comprehensive analysis of management science literature indicated the need to introduce a step by step plan for management skill or competency attainment In doing so the authors built on Katz s Harvard tripartite categorization of skills and expanded it to five subdivisions so as to cover also the personal attributes needed by the prospective manager as well as those conjoined skills gained through a combinatorial process that the individual is required to employ on the job What Katz calls human skills we now call interpersonal skills so as to distinguish this category from personal skills No 1 below These subdivisions or categories are therefore as follows 1 Personal skills or developing one s own individual competencies prior to concentrating of the managerial task 2 Interpersonal skills or acquiring the skills needed to influence people positively to work toward accomplishment of organizational objectives and goals 3 Conceptual skills or learning to formulate ideas and plans while on the job as a manager 4 Technical skills or acquiring the various skills and techniques needed to cope with the various organizational details and problems that arise 5 Conjoined skills or developing the various managerial skills in some combination or proportion to achieve both immediate and long range objectives and goals Granting that Katz's categories of human interpersonal as we call it conceptual and technical managerial skills along with our additional subdivisions of so called personal and conjoined skills are not mutually exclusive this plan enables the teacher and the students to move selectively from theory to practice within each of the five categories described The method for working toward the achievement of the specific competencies or skills is 1 through the provision of statements describing the objectives of the modules used to develop the competencies 2 to offer knowledge statements introducing the trainee to the theoretic bases of the competencies and their roles and functions in the management process and 3 by recommending selected laboratory exercises for achieving a degree of success at least based on involvement in a variety of problem solving experiences After the student comprehends the problem to be met or solved a questioning process determines 1 what needs to be known 2 where this information may be obtained 3 how to organize the actual learning experience 4 what the probable result will be and 5 how to evaluate the level of competency attainment where such is possible The teaching and learning process employed by the instructor is designed therefore to include a variety of laboratory experiences. The tear out sheets for each

laboratory experience are to be completed and handed in as indicated by the course instructor In addition to standard lecture and discussion techniques that we assume will be included by the instructor other learning devices available can include use of the case method role playing independent study interaction with a personal computer elementary theory formulation response to questionnaires and self testing devices individual projects small discussion groups etc When the instructor wishes and there is class time available he or she can introduce action or applied research based independent investigation e g survey game theory debates internship experiences panels forums and so forth Basically a fivefold learning process is recommended This process employs three steps 1 understanding of the objective of the learning experience module 2 reading and comprehension of a knowledge statement or lecturette about the particular skill involved and 3 skill learning through analysis and practice Thus the instructor can 1 assess initial student status 2 introduce selected experiences to strengthen areas of possible weakness and subsequently 3 evaluate competency attainment Manual of Policies and Procedures Standard Operating Procedures for Primary Care Physicians Robyn California.
