YOU TOO CAN BECOME A POLYGLOT Roberto Coppola, 2015-11-02 If your dream is to learn many foreign languages that is becoming a polyglot then this is the right book for you This book is an effective practical guide to self study foreign languages The author examines effective methods and shares precious secrets of great past and present polyglots while explaining how to plan and respect the best learning strategy The aim is to obtain a high level of competence in a foreign language in a short period of time suggesting us to learn not just one foreign language but four That s right four foreign languages in 2 years Even though this ambitious goal may seem extremely difficult it is not Time management is of fundamental importance and with this book you will know what to do and what not to to keep track of your time and not waste a single day of study Embarking on a learning journey is definitely challenging but wonderful It requires effort determination and a great study program The author a passionate science educator and a self taught polyglot shares his insight on how to become more productive and accelerate the learning process saving you time and effort [How to Learn a Foreign Language](#) Paul Pimsleur, 2013-10 In this entertaining and groundbreaking book Dr Paul Pimsleur creator of the renowned Pimsleur Method the world leader in audio based language learning shows how anyone can learn to speak a foreign language If learning a language in high school left you bruised with a sense that there was no way you can learn another language How to Learn a Foreign Language will restore your sense of hope In simple straightforward terms Dr Pimsleur will help you learn grammar seamlessly vocabulary and how to practice pronunciation and come out sounding like a native The key is the simplicity and directness of Pimsleur s approach to a daunting subject breaking it down piece by piece demystifying the process along the way Dr Pimsleur draws on his own language learning trials and tribulations offering practical advice for overcoming the obstacles so many of us face Originally published in 1980 How to Learn a Foreign Language is now available on the 50th anniversary of Dr Pimsleur s publication of the first of his first audio courses that embodied the concepts and methods found here It s a fascinating glimpse into the inner workings of the mind of this amazing pioneer of language learning *5 Steps to Speak a New Language* Hung Quang Pham, 2010-09 Hung Q Pham has applied sound business practice to learning to create a inspiring guide to tackling any language From identifying the vocabulary that really matters to tips for pronunciation it s a great set of techniques which will have you speaking reading and writing your new language in no time Chris Graham UK [Forum](#), 1980 A journal for the teacher of english outside the United States [The Psychology of the Language Learner](#) Zoltán Dörnyei, 2014-04-04 Research results over the past decades have consistently demonstrated that a key reason why many second language learners fail while some learners do better with less effort lies in various learner attributes such as personality traits motivation or language aptitude In psychology these attributes have traditionally been called individual differences The scope of individual learner differences is broad ranging from creativity to learner styles and anxiety yet there is no current comprehensive and unified volume that provides an

overview of the considerable amount of research conducted on various language learner differences until now Each chapter in this new volume focuses on a different individual difference variable Besides a review of the relevant second language literature Zolt n D nyei presents a concise overview of the psychological research involving each topic A key concern for the author has been to define the various learner factors as measurable constructs and therefore the discussion includes a summary of the most famous tests and questionnaires in each domain A wide range of readers will benefit from this book students in linguistics applied linguistics modern languages and psychology programs second language teachers participating in in service training courses and researchers in second language acquisition and psychology Catalog of Copyright Entries.
