Pink And The Green Followed By Mina De Vanghel:

The Pink & the Green ; Followed By, Mina de Vanghel Stendhal, 1988 Background information accompanies the texts of Stendahl s unfinished novel and the short story that inspired it Stendhal's Less-Loved Heroines Maria C. Scott, 2017-12-02 Stendhal s most independent heroines are usually disliked or marginalized by critics However when gender neutral criteria are applied Mina de Vanghel Vanina Vanini Mathilde de La Mole and Lamiel can all be shown to enact extraordinary experiments in freedom These experiments are all the more remarkable in view of the gender of their agents the historical situation of the author 1783 1842 and the conventions of the literary movement that his fiction helped to found realism Simone de Beauvoir s 1949 study of Stendhal s heroines gives preference to the reserved females over his Amazons But existentialism as a philosophy of freedom also enables a reading of the self determining heroines that acknowledges the superiority of their choices their resistance and counter plots their paradoxical authenticity their rejection of seriousness and their assumption of responsibility for the routes they plot Stendhal Francesco Manzini, 2019-10-15 This is a book about the life and work of a singular writer an author well known for his biographies and travel writing but most famous for his novels *The Red and the Black* and *The Charterhouse of Parma* As a child Stendhal witnessed the unfolding of the French Revolution as a young man he served Napoleon first as a soldier and then as an administrator and as a middle aged man he made it his task not to pursue his career but instead to take as much paid leave as possible in order to be free and to be happy and to write Stendhal s works often take the form of conversations with his readers the Happy Few as he called them about the things that matter most He once claimed that he spent the majority of his life carefully considering five or six main ideas This book makes clear what those main ideas were why they mattered to Stendhal and why they continue to matter to all of us **The Charterhouse of Parma** Stendhal, 1999 *The Charterhouse of Parma* 1839 is a compelling novel of passion and daring of prisons and heroic escape of political chicanery and sublime personal courage Set at the beginning of the nineteenth century amidst the golden landscapes of northern Italy it traces the joyous but ill starred amorous exploits of a handsome young aristocrat called Fabrice del Dongo and of his incomparable aunt Gina her suitor Prime Minister Mosca and Cl lia a heroine of ethereal beauty and earthly passion These characters are rendered unforgettable by Stendhal s remarkable gift for psychological insight Never before have the hearts of princes ministers courtiers and women been depicted like this wrote Honor de Balzac Stendhal s tableau has the dimensions of a fresco but the precision of the Dutch masters The great achievement of *The Charterhouse of Parma* is to conjure up the excitement and romance of youth while never losing sight of the harsh realities which beset the pursuit of happiness nor the humour and patient irony with which these must be viewed This new translation captures Stendhal s narrative verve while the Introduction explores the novel s reception and the reasons for its enduring popularity and power **Stendhal** Roger Pearson, 2014-09-11 Both critic and writer Stendhal has now become established as one of realism s founding fathers Dr Pearson s book maps out for the first

time the critical reception of Stendhal's two most widely read novels *The Red and the Black* and *The Charterhouse of Parma* since their publication in 1830 and 1839 respectively. In part one he provides generous samples of the most important nineteenth century responses to the novels almost all of them translated into English for the first time. Part two presents a full range of the most authoritative and influential readings since 1945 which illustrate a wide variety of critical approaches.

Library Journal, 1988 **Essays in Aesthetics** Gärard Genette, 2005-01-01 Over the course of the past forty years Gärard Genette's work has profoundly influenced scholars of narratology poetics aesthetics and literary and cultural criticism and he continues to be one of France's most influential theorists. The eighteen pieces in *Essays in Aesthetics* are of international interest because they are concerned either with universal aesthetic problems the receiver's relationship to an aesthetic object abstract art the role of repetition in aesthetics genre theory and the rapport between literature and music or with specific moments in the work of a well known writer or artist such as Stendhal Proust Manet Pissarro and Canaletto. *Essays in Aesthetics* contains a wealth of material related to the appreciation of beauty by one of the subtlest and most original minds working in aesthetics today. Genette knows the fine arts as well as he knows literature and as a result has innovative things to say to readers in that field as well as to philosophers and literary scholars. *The Red and the Black* Stendhal, 1998 In this fast moving novel of post Napoleonic France Julien Sorel's plans to reach the higher echelons of society through the priesthood are deflected by his realization that the attainment of happiness is of greater consequence than the pursuit of ambition. **Stendhal as Economist** Alfred H. Bornemann, 1994 Argues that French novelist Stendhal 1783-1842 was a pioneer economist part of the emerging interest in Adam Smith and the development of political economics in France in the early 1800's. Describes his informal economic education and critiques his political treatises and the relationship between his economic perceptions and his novels. No index. Includes biographical bibliographical entries on nearly 500 writers and approximately 550 entries focusing on significant works of world literature. cultural context of France in the first half of the nineteenth century The narrative follows the work and careers of France's two chief rivals on the subject of light Arago and Biot Their disagreement began on the subject of technical optics but expanded to include politics religion agricultural policy education dinner companions housing arrangements photography railroads vital forces astrology the Egyptian calendar and colonial slavery At the heart of their disagreement was always a question of visibility and the extent of transparency or obscurity they assigned to the world Optical transparency formed a crucial condition for Arago's vision of a liberal republic governed by reason Biot's call for strong forms of authority rested on his claims that the world did not offer itself up for universal agreement so easily
