THE FACTS BEHIND THE FIGURES

The true cost of airplane transportation is best measured in terms of the savings it makes possible — savings in money, time and energy. Travel in your modern Piper businessplane — by eliminating many of the "hidden costs" of other forms of travel — actually reduces cost figured by any yardstick . . . cost per mile, cost per hour, cost per unit of manpower.

On business trips, travel that would take several days by other transportation is easily, pleasantly accomplished by Piper in a single day.

Hotel expenses are reduced . . . businessmen are able to spend more nights at home . . . distant jobs are visited more frequently . . . "troubleshooting" is expedited . . . customers receive faster service . . . company prestige is enhanced — all this on the schedule best suited to individual travel needs.

When you travel by fast, comfortable Piper, you reach your destination relaxed, refreshed. Then at work's end . . . when it's time for vacation . . . you look forward with keenest relish to the pure pleasure of Piper travel. Glamorous vacation trips — once a major project — are enjoyed casually, as often as you like, in your own high performance Piper.

What does it cost to own and fly a Piper? The answer lies in what you save. Look at the figures, then consider the facts. These days, can you afford to be without a Piper?
