The Visionary Art of William Blake Naomi Billingsley,2018-05-10 William Blake 1757 1827 is considered one of the most singular and brilliant talents that England has ever produced Celebrated now for the originality of his thinking painting and verse he

shocked contemporaries by rejecting all forms of organized worship even while adhering to the truth of the Bible But how did he come to equate Christianity with art How did he use images and paint to express those radical and prophetic ideas about religion which he came in time to believe And why did he conceive of Christ himself as an artist in fact as the artist par excellence These are among the questions which Naomi Billingsley explores in her subtle and wide ranging new study in art religion and the history of ideas Suggesting that Blake expresses through his representations of Jesus a truly distinctive theology of art and offering detailed readings of Blake s paintings and biblical commentary she argues that her subject thought of Christ as an artist archetype Blake s is thus a distinctively Romantic vision of art in which both the artist and his saviour fundamentally change the way that the world is perceived **Refractions** Frauke Reitemeier,2022 Put simply refraction describes a change in the direction of light or sound due to a change in the medium the light or sound goes through Writing a Bachelor s or Master s thesis means changing the direction of light shed on a particular text or topic as the theses collected in this volume conclusively show A dystopian novel is shown to hinge on questions of animal rights a complex novelistic structure is revealed to have its origins in scientific discourses a clearly Gothic novel has its foundation in aesthetic Christianity to outline just some of the topics All these papers have in common that they take a well known text or idea and change the angle through which it is read and analysed and suddenly a rainbow of new insights is created Blake and Homosexuality C. Hobson,2016-04-30 Against the backdrop of Britain s underground 18th and early 19th century homosexual culture mob persecutions and executions of homosexuals Hobson shows how Blake s hatred of sexual and religious hypocrisy and state repression and his revolutionary social vision led him gradually to accept homosexuality as an integral part of human sexuality In the process Blake rejected the antihomosexual bias of British radical tradition revised his idealization of aggressive male heterosexuality and his male centered view of gender and refined his conception of the cooperative commonwealth The Figure of Music in Nineteenth-Century British Poetry Phyllis Weliver,2017-07-05 How was music depicted in and mediated through Romantic and Victorian poetry This is the central question that this specially commissioned volume of essays sets out to explore in order to understand better music s place and its significance in nineteenth century British culture Analysing how music took part in and commented on a wide range of scientific literary and cultural discourses the book expands our knowledge of how music was central to the nineteenth century imagination Like its companion volume *The Idea of Music in Victorian Fiction* Ashgate 2004 edited by Sophie Fuller and Nicky Losseff this book provides a meeting place for literary studies and musicology with contributions by scholars situated in each field Areas investigated in these essays include the Romantic interest in national musical traditions the figure of the Eolian harp in the poetry of Coleridge and Shelley the recurring theme of music in Blake s verse settings of Tennyson by Parry and Elgar that demonstrate how literary representations of musical ideas are refigured in music George Eliot s use of music in her poetry to explore literary and philosophical themes music in the verse of Christina and Dante Gabriel Rossetti the personification of

lyric Sappho in a song cycle by Granville and Helen Bantock and music and sexual identity in the poetry of Wilde Symonds Michael Field Beardsley Gray and Davidson English Poetry of the Romantic Period 1789-1830 J.R.
