Rod Miata Enthusiasts Repair Manual:

Mazda Miata 1800 Rod Grainger, Pete Shoemark, 2000 Following the success and critical acclaim of Veloce's original manual for the MX-5 1.6 Miata 1.6 in USA we've once again got our hands oily to bring the reader a new manual on the 1.8 model. Just like its predecessor this new book is phenomenally detailed covering the car from front bumper to rear tailpipe in an informative, helpful and easy to understand manner. Every detail of important repair and maintenance jobs is covered including how to overcome problems without resorting to special tools. Packed with step-by-step photographs and useful line drawings. No owner can afford to be without his unique manual. [Mazda MX-5 Miata 1.8 Enthusiast's Workshop Manual](#)

Rod Grainger, 2017 This is a phenomenally detailed book which covers the car from bumper to bumper. Every detail of important repair and maintenance jobs is covered. Covers all Mk1 cars with pop-up headlights 1.8 litre models 1994-98 the only aftermarket workshop manual available for the MX-5 written in an easy to use friendly style. Step-by-step procedures supported by hundreds of photos covers all aspects of maintenance and repair and applies equally to Eunos Roadster Japanese market model and Mazda Miata US market model. Rod Grainger, 2017 Superbly detailed text with over 1500 photographs covering every detail of important jobs without resorting to special tools. **Mazda MX-5 Miata 1.6 Enthusiast's Workshop Manual** Rod Grainger, 2017-08-15 With open topped styling and performance evocative of the classic sportscars of the 1960s the Mazda MX-5 Eunos had to be a huge international success and that's exactly what it's become. Now a familiar sight on the streets and boulevards of the world the MX-5 is owned by real enthusiasts the kind of people who will want to have hands-on involvement with the maintenance and repair of their prized possession. For those enthusiasts here is what we believe to be the best, easiest to use workshop manual in the world. Author Rod Grainger set out to create a new kind of owner's workshop manual friendly, easy to understand, easy to use and yet more detailed than any other manual currently available. Two years later the Mazda MX-5 Miata 1.6 Enthusiast's Workshop Manual was the result. Rod and fellow enthusiasts Pete and Judith stripped down an MX-5 in an ordinary domestic garage using ordinary tools and in the process took over 1,500 step-by-step photographs. The result of all this work is a superbly detailed text which passes on to the reader every detail of important jobs including how problems can be overcome without resorting to special tools. This manual even tells the reader the size of nuts and bolts so they can start work with the right tools and all clearances and torque values are given in the text as the reader needs them. At paragraph level a unique symbol system provides cross references or tells the reader that there are helpful associated photos, drawings and tables. The dreaded words 'reassembly is a reversal of the dismantling procedure' are banned and every task from changing a bulb to rebuilding the gearbox is described in full. Besides detailed coverage of maintenance and repairs this manual includes advice on rustproofing, cosmetic tuning and mechanical tuning. Rod's manual was prepared with the assistance of Mazda and it applies to all 1.6 litre models built between 1989 and 1995. Most of the manual is relevant to later 1.6 litre models too.
