Seventeenth Century Fiction Text Transmission responds to the present interest in the novel by offering a fresh approach to the history of early modern fiction that shifts away from the outmoded rise of the novel perspective and reaches beyond the boundaries of a single national literature Starting from the literary text and looking outwards this volume focuses on the changes in prose forms and their usage at a critical point in the evolution of modern fiction and comes to grips with the instabilities of the novel and novella during this period It explores the nature of seventeenth century fiction and examines how authors fused fictional and non fictional materials to create new hybrid genres Furthermore it takes into consideration the cultural interchange between different geographical regions and languages English French Spanish Italian Neo Latin and uncovers the deeper roots of seventeenth century literary innovation

by casting light on the Continental influences on the formation of the English novel and on the role played by women's writings at the time. This landmark volume not only contributes to a more comprehensive history of the novel but promotes an authentic appreciation of early modern fiction.

Theory into Poetry, 2022-05-20 At the beginning of the 21st century there is still no generally accepted comprehensive definition of the lyric or differentiated modern toolkit for its analysis. The reception of poetry is largely characterised either by an empathetic identification of critics with the lyric persona or by exclusive interest in formal patterning. The present volume seeks to remedy this deficit. All the contributors theorise the lyric to overcome the impasse of an impressionistic and narrowly formalistic critical debate on the genre. Their papers focus on a variety of different questions: the problem of establishing a framework for definition and classification; the search for dynamic and potent critical approaches; investigations of poetry's cultural performance and its fundamental relevance for the construction of group cohesion. The essays collected in this volume offer a consciously polyphonic range of theories and interpretations suggesting to the reader a variety of theoretical frameworks and practical illustrations of how a discussion of poetry may be firmly grounded in modern literary theory.

Queering Mennonite Literature Daniel Shank Cruz, 2019-01-27 Though the terms queer and Mennonite rarely come into theoretical or cultural contact over the last several decades, writers and scholars in the United States and Canada have built a body of queer Mennonite literature that shifts these identities into conversation. In this volume, Daniel Shank Cruz brings this growing genre into a critical focus, bridging the gaps between queer theory, literary criticism, and Mennonite literature. Cruz focuses his analysis on recent Mennonite-authored literary texts that espouse queer theoretical principles, including Christina Penner's *Widows of Hamilton House*, Wes Funk's *Wes Side Story*, and Sofia Samatar's *Tender*. These works argue for the existence of a queer Mennonite identity on the basis of shared values: a commitment to social justice, a rejection of binaries, the importance of creative approaches to conflict resolution, and the practice of mutual aid, especially in resisting oppression. Through his analysis, Cruz encourages those engaging with both Mennonite and queer literary criticism to explore the opportunity for conversation and overlap between the two fields. By arguing for engagement between these two identities and highlighting the aspects of Mennonitism that are inherently queer, Cruz gives much-needed attention to an emerging

subfield of Mennonite literature This volume makes a new and important intervention into the fields of queer theory literary studies Mennonite studies and religious studies
