This volume is complete with 18 articles by leading programmers that focus on the ability of graphics processing units to process and generate geometry in exciting ways. *GPU Pro 360 Guide to Mobile Devices* is comprised of ready to use ideas and efficient procedures that can help solve many computer graphics programming challenges that may arise. **Key Features** Presents tips, tricks on real time rendering of special effects and visualization data on common consumer software platforms such as PCs, video consoles, mobile devices. Covers specific challenges involved in creating games on various platforms. Explores the latest developments in rapidly evolving field of real time rendering. Takes practical approach that helps graphics programmers solve their daily challenges. **Safety and Security Engineering IV** Massimo Guarascio, 2011 Organised by Wessex Institute of Technology UK, University of Antwerp Belgium, University of Rome La Sapienza Italy. *prelim Mobile Computing, Applications, and Services* David Uhler, Khanjan Mehta, 2013-02-05 This book constitutes the thoroughly refereed post conference proceedings of the Fourth International Conference on Mobile Computing Applications and Services MobiCASE 2012 held in Seattle, Washington, USA in October 2012. The 18 revised full papers presented together with 9 revised poster papers were carefully reviewed and selected from 51 submissions. The conference papers are organized in five topical sections covering mobile application development, multi dimensional interactions, system support and architecture, mobile applications and mobile services. *Trends in Applied Intelligent Systems* Nicolás García-Pedrajas, Francisco Herrera, Colin Fyfe, José Manuel Benítez Sánchez, Moonis Ali, 2011-01-22 Annotation: The three volume set LNAI 6096, LNAI 6097 and LNAI 6098 constitutes the thoroughly refereed conference proceedings of the 23rd International Conference on Industrial Engineering and Other Applications of Applied Intelligent Systems IEA AIE 2010 held in Cordoba, Spain in June 2010. The total of 119 papers selected for the proceedings were carefully reviewed and selected from 297 submissions. **HWM**, 2008-11 Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in depth reviews. *The New Community Rules* Tamar Weinberg, 2009-07-08 This book offers crucial advice and strategies for marketing products and services on today's social web with case studies on what really works and what doesn't. **Innovative Applications of Ambient Intelligence: Advances in Smart Systems** Curran, Kevin, 2012-01-31 This book provides perspectives on the convergence of ubiquitous computing, intelligent systems, research and context awareness with the aim of encouraging the further development of ambient intelligence frameworks and research. **HWM**, 2008-08 Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in depth reviews. **Mobile Telecommunications in a High-Speed World** Peter Curwen, Jason Whalley, 2016-07-22 *Mobile Telecommunications in a High Speed World* tells the story of 3G and

higher speed mobile communication technologies Over ten years have passed since the first third generation 3G licences were awarded following debates about the merits of auctions versus beauty contests then nothing much happened More licences were issued a few roll outs commenced and everyone began to think it had all been a horribly expensive mistake That may still turn out to be the case but in the meantime there have been massive developments in terms of the number of licences and launches worldwide in the range of services that can be accessed in the range of devices that can be used to access them in operator strategies etc Even the technology has improved considerably with 4G now under discussion Much of this story has been chronicled largely on the Internet but the information is in tens of thousands of bits and pieces and a large part of it is either misleading or just plain wrong Here Peter Curwen and Jason Whalley introduce the outcomes of research that has involved the compilation of a unique database which details every licence and launch worldwide involving 3G The authors discuss the structure of the industry and the strategic behaviour of operators as well as the social consequences of the spread of 3G They examine the role of new entry upon competition and present analysis of the main operators involved the development of handsets and especially smartphones A number of country case studies are included This comprehensive and up to date volume includes a number of country studies and is written by two of the world's foremost researchers on this industry Mobile Telecommunications in a High Speed World will serve the needs of students academics and those involved or contemplating involvement with the telecoms industry Why pay thousands of dollars to consultancies to separate the wheat from the chaff with respect to 3G when you can read this book

Dangerous Technologies Brandaan Huigen, 2005-11-10 Dangerous Technologies focuses on the prevalent theft of consumer electronics in post Apartheid South Africa Through a material culture perspective it explores why these objects have commonly been targeted by bandits and subsequently circulated through the criminal underground The author traces ethnographically how devices travel between various social spheres

delving into the experiences of a range of individuals from diverse residents who fall victim to criminals to the bandits who steal electronics for money or drugs the African migrants who export consignments of stolen electronics to their home countries the envious residents who buy stolen electronics and finally the police attempting to grapple with the problem Dangerous Technologies suggests that electronics have widened digital divides between citizens resulting in underground circuits that seek to violently redistribute enviable electronics to low income residents who have not been able to formally participate in electronics consumption and use Due to porous borders the widespread theft and redistribution of electronics do not only stem from internal inequalities within South African society but also from broader disparities across the African continent The book furthers knowledge about how and why particularly modern electronics have precipitated violent property crime in democratic South Africa It is relevant to scholars of social and cultural anthropology particularly those with an interest in material culture digital anthropology and economic and political anthropology as well as criminologists
