Tortora, Bryan Derrickson, 2006 This highly acclaimed widely used book has provides a superb balance between structure and function emphasizing the correlations between normal physiology and pathophysiology normal anatomy and pathology and homeostasis and homeostatic imbalances Designing Your Own Classical Curriculum Laura M. Berquist, 2010-09-20 Home educator Laura Berquist presents a modern curriculum based on the time tested philosophy of the

classical Trivium grammar logic and rhetoric She has given homeschoolers a valuable tool for putting together a liberal arts curriculum that feeds the soul as well as the intellect Her approach covering grades K 12 is detailed and practical and it is adaptable by parents and teachers to any situation This third revised edition includes a much expanded section for a high school curriculum and an updated list of resources for all grades Biology/science Materials Carolina Biological Supply Company,1991 *Education News (Sydney)*. ,1969 **Teaching Science to Language Minority Students** Judith W. Rosenthal,1996 In the USA the number of college students with limited English proficiency is increasing Even after successfully completing a course of English as a second language many face both linguistic and cultural barriers in mainstream classes This book focuses on both the theory and practice of assisting such students especially in the sciences As the number of non native English speaking students increases at colleges and universities innovative approaches are needed to successfully educate this population and how science is taught may be crucial Instruction in the students native language may become increasingly important in attracting and retaining non native English speakers in college This book is aimed primarily at staff who teach science to LEP undergraduates but others who should be interested include staff involved with postgraduate students and high school science teachers Near Human Mette N. Svendsen,2021-11-12 Near Human takes us into the borders of human and animal life In the animal facility fragile piglets substitute for humans who cannot be experimented on In the neonatal intensive care unit extremely premature infants prompt questions about whether they are too fragile to save or if they survive whether they will face a life of severe disability Drawing on ethnographic fieldwork carried out on farms in animal based experimental science labs and in hospitals Mette N Svendsen shows that practices of substitution redirect the question of what it means to be human to what it takes to be human The near humanness of preterm infants and research piglets becomes an avenue to unravel how neonatal life is imagined how societal belonging is evaluated and how the Danish welfare state is forged This courageous multi sited and multi species approach cracks open the complex ethical field of valuating life and making different kinds of pigs and different kinds of humans belong in Denmark
