Pinterest Profit Secrets 2021 Edition Training Guide Laura Maya,2021-10-30 Is Pinterest the New Google Google is a search engine That means whatever you re looking for you can Google it From obscure song lyrics to how to hem pants you can Google a term or phrase and find videos images and links to relative content Sort of like Google Pinterest is a visual search engine Pinterest uses a visual platform of images that stand alone as content but also link to resources for deeper and richer information and engagement Like Google you can use key words and phrases to search for relative content Even better than Google you can save your links or pins to boards which are a helpful way to organize content Googling a word or phrase can generate the top ten or so articles images and other content relative to that search Many of the results are paid ads which rank higher than organic content Pinterest however can generate many more results from a search and each and every image offered can lead to a deeper dive experience about a subject or related topic In this way Pinterest may be better than Google for specific searches Can Pinterest be Used for Business When it comes to certain topics like recipes DIY and business topics Pinterest can be a gold mine As a user Pinterest is an excellent way to find relative content quickly and save it for use down the line If you re a content creator Pinterest is an excellent way to showcase your goods and services and attract customers easier and more effectively than you might have exclusively with Google It s also superior to social media platforms like Instagram that don t allow links on posts Pinterest is actually one of the largest drivers of traffic to websites in the world Many people think Pinterest is used mainly by women or worry their target audience isn t using the social media platform Both are false Pinterest demographics include all genders and ages and Pinterest has been found to be more effective at leading people to content than other platforms like Twitter Optimizing your Website and Your Pinterest Account Makes Sense Everyone knows website optimization is vital to

Vincent,2024-12-02 Why You Should Use Pinterest to Market Your Business Due to the sheer number of social media sites available most business owners focus their time and attention on one or two When considering which sites to use to promote and market your business don t overlook Pinterest s visually compelling Pins and Boards There are several notable ways in which Pinterest differs from other social networking platforms While you can follow other users and they can follow you this is not a social network Rather than that it s about providing rapid access to compelling visual imagery and instructive Pins on virtually any subject These Pins can then be saved to a user s own boards for easy access in the future Any user can view another user s Pins by searching for the category or term associated with the Pin While each Pin may have some text or even a URL the purpose is not to convey the here s where I am or what I m doing information seen on the majority of social networking networks Rather than that a pertinent comment on the message and what it represents is acceptable Most crucially unlike Facebook and Twitter where your updates are rarely visible for longer than five days or a few hours Pins can be visible in search results eternally Still Not Convinced Consider the Following Statistics If you re tempted to continue with the major players such as Facebook and Twitter hold off on dismissing Pinterest until you examine the facts To begin let s discuss the sheer number of your potential audience Pinterest has a mind boggling 150 million active users Yes you read that correctly 70 million of those are in the United States while 80 million live elsewhere As could be predicted Pinterest activity is enormous There are about 75 billion Pins on over a billion public and private user boards Each day almost 2 billion shopping pins are shared **Secret Sauce Of Digital Business** Chirag Dude,2020-10-08 All Entrepreneur stories are love stories Love with their passion and work Whether your fantasy is escaping the rat race experiencing high end world travel earning a monthly five figure business
