Head control unit

When installing the head inside car phone, avoid positioning the head control unit where it may obstruct the proper operation of the vehicle and/or its components, such as air vents, air bags, catalytic converter compartment, engine light, gear stick, hand brake, etc.

Attach the head-mount car phone on a stable surface, in a position that is safe and convenient for the driver to use.

Special warning: Do not position the head control unit in front of the air bag or where it may impact air bag performance, as the air bag might inflate in an accident and cause damage.

Verify that the control unit does not face the sun or source of humidity, such as air conditioner vents.

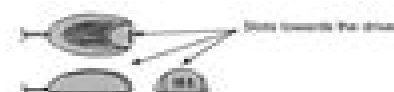

Assembly Diagram 2

Microphone

Install the microphone at a distance of no more than 20 cm (7.9 inches) away from the driver's mouth, ideally in the upper right hand side of the rear view and away from any noise source such as windshields, windows, laptop conditioner, car stereo, etc.

Make sure the microphone is at a distance of at least 1.5m (4.9 ft) from the speaker and is not directed towards the speaker.

Make sure that the microphone is correctly positioned. See picture below for microphone position.

Do not thread the microphone cable close to antenna cable, to avoid audio interference.

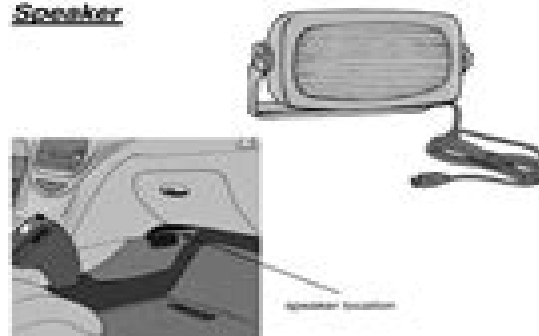

Plug the microphone cable into the compatible connection in the octopus control cable.

Important: Make sure that the microphone cable does not come in contact and does not interfere with the steering wheel and/or the pedals of the vehicle.

Attention! The speaker and microphone (which is fixed on the sun visor above the driver) should be pointed towards opposite directions to avoid echo.

Assembly Diagram 3

Speaker

Install the speaker on the side of the central console, ideally alongside the legs of the passenger sitting beside the driver, as far as possible from the microphone.

Thread the speaker cable under the carpet along the floor of the vehicle.

Plug the speaker cable into the compatible connection in the octopus control cable.

Verify that the cable does not interfere with the proper operation of the vehicle and/or its components.

Do not conceal the speaker behind any obstacle such as dashboard, carpet or any other barrier which will result in bad audio quality.

Attention! The speaker and microphone (which is fixed on the sun visor above the driver) should be pointed towards opposite directions to avoid echo. Speaker side should be pointed towards passenger side.
