Precepts Of The Puppetmaster English Edition:

The Puppet Master of Islam Richard Bennett,2022-09-01 To understand the dangers imposed upon the world by Allah Muhammad and the angel of light you must look at Islam through the eyes of Christianity Hal Lindsey one of the true futurist preachers of our time wrote in *The Late Great Planet Earth* that there are only two sources of the supernatural The God of the Bible followed by Christians and the god of this world followed by Muslims who is described as an angel of light 2 Corinthians 11 14 This is the angel that visited Muhammad and introduced Allah into the world In the beginning Muhammad thought he was possessed He spent years convincing himself that he was not Many however believe that what Muhammad suspected about demonic possession may be true It took a great deal of persuasion by Muhammad s first wife Khadija to convince him that his encounter may have been divine as opposed to demonic in origin She was instrumental in the birth of the prophet becoming a reality Discover the evil of Islam and how we know that the apparition that spoke to Muhammad was likely an evil spirit in *The Puppet Master of Islam* *Acting* Mary Beth Osnes,2001-12-07 A groundbreaking cross cultural reference work exploring the diversity of expression found in rituals festivals and performances uncovering acting techniques and practices from around the world *Acting An International Encyclopedia* explores the amazing diversity of dramatic expression found in rituals festivals and live and filmed performances Its hundreds of alphabetically arranged fully referenced entries offer insights into famous players writers and directors as well as notable stage and film productions from around the world and throughout the history of theater cinema and television The book also includes a surprising array of additional topics including important venues from Greek amphitheaters to Broadway and Hollywood acting schools the Actor s Studio and companies the Royal Shakespeare performance genres from religious pageants to puppetry technical terms of the actor s art and much more It is a unique resource for exploring the techniques performers use to captivate their audiences and how those techniques have evolved to meet the demands of performing through Greek masks and layers of Kabuki makeup in vast halls or tiny theaters or for the unforgiving eye of the camera *Reclaiming Religion from the Church* Frank Canatella,2003-02 The first rule of life is survive And since we are necessarily social we must add the corollary together All oughts derive from this two part rule Most of us understand this intuitively if not explicitly The only issue to be resolved is how inclusive is our togetherness Is it just our tribe our nation the northern hemisphere Or must we include the whole human family These are the moral issues we must answer and they are empirical questions Behavior has consequences We have to ask ourselves Will such and such behaviors promote survival The answer can only come from the experience of the community Present demographics will not allow us to elude the question much longer Church rules can be faulted on a number of counts not the least of which is that God gave us the rules so they can t change even when experience indicates that they should Also the church leaders think the purpose of the rules is to save our souls and so our life here has been seriously neglected in many respects especially for the poor and the underclass because everything is supposed to be made

right in the hereafter This I regard as backward It affirms those who oppress the poor Scientists make inferences from empirical data and the results are always subject to revision Church officials make inferences from myths and they are set in stone A good example is the doctrine of Original Sin that is presented as an occult event that causes all our problems and about which we can do nothing The church approved of slavery for the better part of two millennia because it was in place when the church was created and St Augustine justified it as one of the punishments resulting from Original Sin Clearly our problem is ignorance the kind we are born with and the kind we acquire through learning falsely I call this Ignorance II after Gregory Bateson s Learning II learning how to learn Ignorance II is a learning dead end learning how not to learn We very obviously do not always know how to act in our own best interests Our best chance of breaking out of this mold is through sharing the best of our communal experience to discover how to act in our own best inerests in the long run This is how to develop a proper morality one we can all live with With a superior organization in place the church is positioned to unite us in the task of developing a proper morality However the church as presently structured can only evolve by backing into the future It claims to already know everything that is necessary to know so it has difficulty learning thus denying it s human origin and makeup To change the church requires a spin on history that demonstrates a development and continuity with the past instead of just saying We have been wrong The People of God the true Church show signs of reclaiming religion through various dissident groups These groups do not yet recognize the intimate connection between morality and survival My hope is that this book will guide them toward that recognition
