Ideas and Forms in English and American Literature: Poetry Homer Andrew Watt, James Buell Munn, 1925 **A study guide for American Literature to 1900** M^a Teresa Gibert Maceda, 2009-01-27 Esta guía está pensada para utilizarse conjuntamente con el libro *American literature to 1900* de la misma autora y editado por la misma editorial. Ofrece los siguientes recursos adicionales como un extenso material complementario que ayuda y guía al alumno a lo largo de las 24 unidades: una colección de veinte ejemplos de poemas y un glosario con una lista de los términos más importantes de la literatura en general y de la literatura americana en particular.

Lyric Encounters Daniel Morris, 2013-05-23 A new survey of twentieth century U.S. poetry that places a special emphasis on poets who have put lyric poetry in dialogue with other forms of creative expression including modern art, the novel, jazz, memoir, and letters. Contesting readings of twentieth century American poetry as hermetic and narcissistic, Morris interprets the lyric as a scene of instruction and thus as a public oriented genre. American poets from Robert Frost to Sherman Alexie bring aesthetics to bear on an exchange that asks readers to think carefully about the ethical demands of reading texts as a reflection of how we metaphorically read the world around us and the persons, places, and things in it. His survey focuses on poems that foreground scenes of conversation, teaching, and debate involving a strong-willed lyric speaker and another self bent on resisting how the speaker imagines the world.

The City in African-American Literature Yoshinobu Hakutani, Robert Butler, 1995 More recent African American literature has also been noteworthy for its largely affirmative vision of urban life. Amiri Baraka's 1981 essay *Black Literature and the Afro American Nation*. The *Urban Voice* argues that from the Harlem Renaissance onward African American literature has been urban shaped, producing a uniquely black urban consciousness. And Toni Morrison, although stressing that the American city in general has often induced a sense of alienation in many African American writers, nevertheless adds that modern African American literature is suffused with an affection for the village within the city.

Tales of Berlin in American Literature up to the 21st Century Joshua Parker, 2016-03-17 Of all European cities, Americans today are perhaps most curious about Berlin, whose position in the American imagination is an essential component of nineteenth century postwar and contemporary transatlantic imagology. Over various periods, Berlin has been a tenuous space for American claims to cultural heritage and to real geographic space in Europe, symbolizing the ultimate evil and the power of redemption. This volume offers a comprehensive examination of the city's image in American literature from 1840 to the present. Tracing both a history of Berlin and of American culture through the ways the city has been narrated across three centuries by some 100 authors through 145 novels, short stories, plays, and poems, *Tales of Berlin* presents a composite landscape not only of the German capital but of shifting subtexts in American society which have contextualized its meaning for Americans in the past and continue to do so today.

A History of American Literature and Culture of the First World War Tim Dayton, Mark W. Van Wienen, 2021-02-04 In the years of and around the First World War, American poets

fiction writers and dramatists came to the forefront of the international movement we call Modernism At the same time a vast amount of non and anti Modernist culture was produced mostly supporting but also critical of the US war effort A History of American Literature and Culture of the First World War explores this fraught cultural moment teasing out the multiple and intricate relationships between an insurgent Modernism a still powerful traditional culture and a variety of cultural and social forces that interacted with and influenced them Including genre studies focused analyses of important wartime movements and groups and broad historical assessments of the significance of the war as prosecuted by the United States on the world stage this book presents original essays defining the state of scholarship on the American culture of the First World War **Reading Recent American Literature** Albert Howard Carter,1967 **Catalog of Copyright**

Entries. Third Series Library of Congress. Copyright Office,1972 *Encyclopedia of American Poetry: The Twentieth Century* Eric L. Haralson,2014-01-21 The Encyclopedia of American Poetry The Twentieth Century contains over 400 entries that treat a broad range of individual poets and poems along with many articles devoted to topics schools or periods of American verse in the century Entries fall into three main categories poet entries which provide biographical and cultural contexts for the author s career entries on individual works which offer closer explication of the most resonant poems in the 20th century canon and topical entries which offer analyses of a given period of literary production school thematically constructed category or other verse tradition that historically has been in dialogue with the poetry of the United States

Repression and Realism in Post-War American Literature E. Mercer,2011-05-09 This study of fiction produced in America in the decade following 1945 examines literature by writers such as Kerouac and Bellow It examines how though such fiction seemed to resolutely avoid the events and implications of World War II it was still suffused with dread and suggestions of war in imagery and language Books and Pamphlets, Including Serials and Contributions to Periodicals Library of Congress.

Copyright Office,1968 *Quarterly Review of the Michigan Alumnus* ,1953 Includes section Some Michigan books **An American Answer to Intolerance** Council Against Intolerance in America,1940 **Prentice Hall Literature** ,1994

The American Writer and the University Ben Siegel,1989 **Espectros** Alberto Ribas-Casasayas,Amanda L. Petersen,2015-12-24 Espectros is a compilation of original scholarly studies that presents the first volume length exploration of the spectral in literature film and photography of Latin America Spain and the Latino diaspora In recent decades scholarship in deconstructionist hauntology trauma studies affect in image theory and a renewed interest in the Gothic genre has given rise to a Spectral Studies approach to the study of narrative Haunting the spectral and the effects of the unseen carry a special weight in contemporary Latin American and Spanish cultures referred to in the book as Transhispanic cultures due to the ominous legacy of authoritarian governments and civil wars as well as the imposition of the unseen yet tangible effects of global economics and neoliberal policies Ribas and Petersen s detailed introductory analysis grounds haunting as a theoretical tool for literary and cultural criticism in the Transhispanic world with an emphasis on the

contemporary period from the end of the Cold War to the present The chapters in this volume explore haunting from a diversity of perspectives in particular engaging haunting as a manifestation of trauma absence and mourning The editors carefully distinguish the collective cultural dimension of historical trauma from the individual psychological experience of the aftermath of a violent history always taking into account unresolved social justice issues The volume also addresses the association of the spectral photographic image with the concept of haunting because of the photograph's ability to reveal a presence that is traditionally absent or has been excluded from hegemonic representations of society The volume concludes with a series of studies that address the unseen effects and progressive deterioration of the social fabric as a result of a globalized economy and neoliberal policies from the modernization of the nation state to present

Blood Politics Circe Dawn Sturm, 2002-03-20 Circe Sturm takes a bold and original approach to one of the most highly charged and important issues in the United States today race and national identity Focusing on the Oklahoma Cherokee she examines how Cherokee identity is socially and politically constructed and how that process is embedded in ideas of blood color and race Not quite a century ago blood degree varied among Cherokee citizens from full blood to 1/256 but today the range is far greater from full blood to 1/2048 This trend raises questions about the symbolic significance of blood and the degree to which blood connections can stretch and still carry a sense of legitimacy It also raises questions about how much racial blending can occur before Cherokees cease to be identified as a distinct people and what danger is posed to Cherokee sovereignty if the federal government continues to identify Cherokees and other Native Americans on a racial basis Combining contemporary ethnography and ethnohistory Sturm's sophisticated and insightful analysis probes the intersection of race and national identity the process of nation formation and the dangers in linking racial and national identities
