Perversion and Modern Japan Nina Cornyetz, J. Keith Vincent, 2010-01-21 How did nerves and neuroses take the place of ghosts and spirits in Meiji Japan How does Natsume Soseki's canonical novel *Kokoro* pervert the Freudian teleology of sexual development What do we make of Jacques Lacan's infamous claim that because of the nature of their language the Japanese people were unanalyzable And how are we to understand the re-awakening of collective memory occasioned by the sudden appearance of a Japanese Imperial soldier stumbling out of the jungle in Guam in 1972 In addressing these and other questions the essays collected here theorize the relation of unconscious fantasy and perversion to discourses of nation identity and history in Japan Against a tradition that claims that Freud's method as a Western discourse makes a bad fit with Japan this volume argues that psychoanalytic reading offers valuable insights into the ways in which Japan itself continues to function as a psychic object By reading a variety of cultural productions as symptomatic elaborations of unconscious and symbolic processes rather than as indexes to cultural truths the authors combat the truisms of modernization theory and the seductive pull of culturalism This volume also offers a much needed psychoanalytic alternative to the area studies convention that reads narratives of all sorts as windows offering insights into a fetishized Japanese culture As such it will be of huge interest to students and scholars of Japanese literature history culture and psychoanalysis more generally
