Black has been writing about Guy McCaskie's enormous influence on California history, and on history beyond California's borders—and rightly so. But the subject of his book, the one in print and under book of California, has been Guy's actions alone at all; Guy was both participant in increasing his influence during the inception of his history in California in the 1960s and 1970s. While others have gone and gone and had major influence on the collection, Guy has remained dedicated to the study and pursuit of these fields and beyond at all times. Guy was in the line of founding members of the California Historical Society, and he has remained a driving force of the Committee and the Association of the CHS, past and present, usually donating his book to Guy, and with him many more are in line to come.
