Britpop and the English Music Tradition Jon Stratton, 2016-04-15 Britpop and the English Music Tradition is the first study devoted exclusively to the Britpop phenomenon and its contexts The genre of Britpop with its assertion of Englishness evolved at the same time that devolution was striking deep into the hegemonic claims of English culture to represent Britain It is usually argued that Britpop with its strident declarations of Englishness was a response to the dominance of grunge The contributors in this volume take a different point of view that Britpop celebrated Englishness at a time when British culture with its English hegemonic core was being challenged and dismantled It is now timely to look back on Britpop as a cultural phenomenon of the 1990s that can be set into the political context of its time and into the cultural context of the last fifty years a time of fundamental revision of what it means to be British and English The book examines issues such as the historical antecedents of Britpop the subjectivities governing the performative conventions of Britpop the cultural context within which Britpop unfolded and its influence on the post Britpop music scene in the UK While Britpop is central to the volume discussion of this phenomenon is used as an opportunity to examine the particularities of English popular music since the turn of the twentieth century

Translation and Music Sebnem Susam-Sarajeva, 2016-04-08 Popular and multimodal forms of cultural products are becoming increasingly visible within translation studies research Interest in translation and music however has so far been relatively limited mainly because translation of musical material has been considered somewhat outside the limits of translation studies as traditionally conceived Difficulties associated with issues such as the musicality of lyrics the fuzzy boundaries between translation adaptation and rewriting and the pervasiveness of covert or unacknowledged translations of musical elements in a variety of settings have generally limited the research in this area to overt and canonized translations such as those done for the opera Yet the intersection of translation and music can be a fascinating field to explore and one which can enrich our understanding of what translation is and how it relates to other forms of expression This special issue is an attempt to open up the field of translation and music to a wider audience within translation studies and to an extent within musicology and cultural studies The volume includes contributions from a wide range of musical genres and languages from those that investigate translation and code switching in North African rap and rai and the intertextual and intersemiotic translations revolving around Mahler's lieder in Chinese to the appropriation and after life of Kurdish folk songs in Turkish and the emergence of rock n roll in Russian Other papers examine the reception of Anglo American stage musicals and musical films in Italy and Spain the concept of singability with examples from Scandinavian languages and the French dubbing of musical episodes of TV series The volume also offers an annotated bibliography on opera translation and a general bibliography on translation and music

B-Sides, Undercurrents and Overtones: Peripheries to Popular in Music, 1960 to the Present George Plasketes, 2016-05-23 There are undercurrents and peripheral taste preferences that are a defining part of our individual and collective cultural experience Music is no exception George Plasketes adapts the iconic A side B side dichotomy from the 45 r p m for use as a unique conceptual critical historical and cultural framework for exploring and threading together a variety of popular music and media texts The profiles and perspectives focus on the peripheries on texts which might be considered B sides overlooked underappreciated and unsung cases creators patterns and productions that have unassumingly but significantly marked popular culture music and media during the past 40 years The underappreciated yet enduring contributions of a variety of creative individuals in music television and film are a centerpiece of this volume actress Doris Day's son Terry Melcher a 1960s music producer whose imprint is on the surf country blues garage pop and most importantly the folk rock genre Hans Fenger's kid chorus cover project a musical variation of outsider art that became representative of the tribute wave that began in the 1990s and continues today versatile guitarist virtuoso Ry Cooder's extensive film soundtrack work World Music missionary efforts of American artists beyond Paul Simon's Graceland including Neil Diamond's precursor with Tap Root Manuscript in the 1970s and the exotic adventures of Henry Kaiser and

David Lindley in Madagascar and Norway to name just a few examples These B sides represent undercurrents but they resonate as overtones in the mainstream of music and culture many as historical hinges Collectively these B sides are an A side antidote of outskirts observations individual snapshots of artists artifacts and rituals genres and generations producers and musical productions in television film and video They constitute an important connect the dots cultural chronicle with a multi layered context social legal historic economic technological generational aesthetic for interpreting the interrelations between creators and institutions the music market place the production of culture and important connections between the peripheral and the popular

Theology and Conversation Jacques Haers,P. De Mey,2003 This collection of articles presents the main contributions to the third LEST Louvain Encounters in Systematic Theology conference held at the K U Leuven s Faculty of Theology November 2001 Its theme Theology and Conversation Towards a Relational Theology continues the explorations in contemporary theology as set out in the 1997 LEST I conference on The Myriad Christ BETL 152 and in the 1999 LEST II conference on Sacramental Presence in Postmodern Context BETL 160 In LEST III also the plurality and diversity of theological approaches play a major role and the question is raised whether the contemporary theological endeavour in a global world contains in itself the tools to respectfully and constructively approach this diversity The ideas of relation and conversation as found in the theologies of the Trinity and of creation as presupposed in ecclesial praxis and as articulated in reflections that take their bearings from spiritual experience provide a powerful means for renewed theological reflection capable of confronting plurality and diversity

Encyclopedia of Icelandic Music , *Song Lyrics and Literary History* Gunilla Hermansson,2025-06-12 Paving new paths for the study of the history of literature this study explores the intricate networks of one single poem across two centuries the V rvindar friska a poem meant to be sung The Swedish song V rvindar friska Fresh Spring Breezes started its public life in 1828 between the covers of a book as a poem written to a traditional melody Since then it has been reprinted translated performed and used in the most surprising contexts in different corners of the world This particular case may be rather exceptional but Gunilla Hermansson argues that the underlying dynamics are not and yet they have been underexposed in studies of literary history This exploration of V rvindar friska reveals the rich and intricate network of one text and uncovers new facets of how people have engaged with word art in their everyday lives in the modern era This network includes untraditional yet widespread uses of poetry and lyrics in lonely hearts columns and railway work and seemingly strange bedfellows such as a constellation of Nordic folk songs and American plantation songs The afterlives of this song evoke questions concerning class gender race

citizenship technology and modernity from new angles as well as theoretical and methodological questions of circulation textual instability canonization paradigmatic turns uses and misuses Song Lyrics and Literary History demonstrates how poetry is transformed when shared across time borders media and social and ideological divides Being attentive to poetry meant to be sung Hermansson argues opens to a fuller and more representative picture of the cultural history of literature
