Crump, 2021-03-08 At Eastertime the most important holiday in the Christian world religious processions in many Latin American countries pass over ornate street carpets fashioned from colored sawdust flowers and fruit Children in Finland and Sweden dress as Easter witches In the Caribbean those who swim on Good Friday risk bad luck In the Philippines some penitents volunteer to be crucified In some European countries Easter Monday is the day for dousing women with water With 240 entries this book explores these and scores of other unusual and sometimes bizarre international Holy Week customs both sacred and secular from pilgrimages to Jerusalem to classic seasonal films and television specials *History of Romanian Technology and Industry* Dorel Banabic, 2023-12-18 This volume showcases the valuable achievements of the Romanian technology and industry worldwide It started from the premise that the history of Romanian technique is scarcely known outside the borders of Romania The main Romanian contributions to the world's technological heritage are missing except for a few names in the field of aviation from the great encyclopedias and dictionaries published worldwide This is due among other reasons to the insufficient promotion in widely spoken languages

of the history of Romanian technology The multidisciplinary approach of the volumes means that the field of technology had to be split into several branches The present volume includes the following industries mining metallurgy oil natural gas machine building agricultural machinery military textiles and construction Folk technology the formation of the industrial system and mechanics are tackled in separate chapters For each field are engaged the collaboration of authors who have already published a history of their field Certain chapters were drafted with the aid of specialists who have played the part of policy makers in the elaboration of development strategies for Romania and who are familiar not only with the facts and the history of their field but also with the philosophy behind its development
