Guffey,2014-10-15 From band posters stapled to telephone poles to the advertisements hanging at bus shelters to the inspirational prints that adorn office walls posters surround us everywhere but do we know how they began Telling the story of this ephemeral art form Elizabeth E Guffey reexamines the poster s roots in the nineteenth century and explores the relevance they still possess in the age of digital media Even in our world of social media and electronic devices she argues few forms of graphic design can rival posters for sheer spatial presence and they provide

new opportunities to communicate across public spaces in cities around the globe Guffey charts the rise of the poster from the revolutionary lithographs that papered nineteenth century London and Paris to twentieth century works of propaganda advertising pop culture and protest Examining contemporary examples she discusses Palestinian martyr posters and West African posters that describe voodoo activities or Internet con men stopping along the way to uncover a rich variety of posters from the Soviet Union China the United States and more Featuring 150 stunning images this illuminating book delivers a fresh look at the poster and offers revealing insights into the designs and practices of our twenty first century world The Poster Ruth E. Iskin, 2014-10-07 The Poster Art Advertising Design and Collecting 1860s 1900s is a cultural history that situates the poster at the crossroads of art design advertising and collecting Though international in scope the book focuses especially on France and England Ruth E Iskin argues that the avant garde poster and the original art print played an important role in the development of a modernist language of art in the 1890s as well as in the adaptation of art to an era of mass media She moreover contends that this new form of visual communication fundamentally redefined relations between word and image poster designers embedded words within the graphic rather than using images to illustrate a text Posters had to function as effective advertising in the hectic environment of the urban street Even though initially commissioned as advertisements they were soon coveted by collectors Iskin introduces readers to the late nineteenth century iconophile a new type of collector curator archivist who discovered in poster collecting an ephemeral archaeology of modernity Bridging the separation between the fields of art design advertising and collecting Iskin s insightful study proposes that the poster played a constitutive role in the modern culture of spectacle This stunningly illustrated book will appeal to art historians and students of visual culture as well as social and cultural history media design and advertising

Art in Literature, Literature in Art in 19th Century France Emilie Sitzia, 2011-12-08 The traditional relationship between painting and literature underwent a profound change in nineteenth century France Painting progressively asserted its independence from literature as it liberated itself from narrative obligations whilst interrogating the concept of subject matter itself Simultaneously the influence of art on the writing styles of authors increased and the character of the artist established itself as a recurring motif in French literature This book offers a panoramic review of the relationship between art and literature in nineteenth century France By means of a series of case studies chosen from key moments throughout the nineteenth century the aim of this study is to provide a focused analysis of specific examples of this relationship revealing both its multifaceted nature as well as offering a panorama of the development of this on going and increasingly complex cultural relationship From Jacques Louis David s irreverence for classical texts to Victor Hugo s graphic works from Edouard Manet s illustrations to Vincent Van Gogh s paintings of books from Honor de Balzac s Unknown Masterpiece to Joris Karl Huysmans s A Rebours this interdisciplinary investigation of the links between literature and art in France throws new light on both fields of creative endeavour during a critical phase of France s cultural history **The Posters that Won the War**

Pisch,2016-12-16 From 1929 until 1953 Iosif Stalin's image became a central symbol in Soviet propaganda Touched up images of an omniscient Stalin appeared everywhere emblazoned across buildings and lining the streets carried in parades and woven into carpets and saturating the media of socialist realist painting statuary monumental architecture friezes banners and posters From the beginning of the Soviet regime posters were seen as a vitally important medium for communicating with the population of the vast territories of the USSR Stalin's image became a symbol of Bolshevik values and the personification of a revolutionary new type of society The persona created for Stalin in propaganda posters reflects how the state saw itself or at the very least how it wished to appear in the eyes of the people The Stalin who was celebrated in posters bore but scant resemblance to the man Iosif Vissarionovich Dzhugashvili whose humble origins criminal past penchant for violent solutions and unprepossessing appearance made him an unlikely recipient of uncritical charismatic adulation The Bolsheviks needed a wise nurturing and authoritative figure to embody their revolutionary vision and to legitimate their hold on power This leader would come to embody the sacred and archetypal qualities of the wise Teacher the Father of the nation the great Warrior and military strategist and the Saviour of first the Russian land and then the whole world This book is the first dedicated study on the marketing of Stalin in Soviet propaganda posters Drawing on the archives of libraries and museums throughout Russia hundreds of previously unpublished posters are examined with more than 130 reproduced in full colour The personality cult of Stalin in Soviet posters 1929 1953 is a unique and valuable contribution to the discourse in Stalinist studies across a number of disciplines **Picture This** Pearl James,2009 Essays by Jay Winter Jeffrey T Schnapp Jennifer D Keene and others reveal the centrality of visual media particularly the poster within the specific
