Pour Une Histoire Politique De La Race:

Pour une histoire politique de la race Jean-Frédéric Schaub, 2015-03-19 Une réflexion sur les enseignements de l'utilisation de la notion de race au cours du temps qui propose un certain nombre de repères en rappelant les moments forts de l'histoire de la formation des catégories raciales et en montrant comment les sociétés et les institutions ont fait appel à la différence naturelle pour créer et recréer de la division en leur sein

Racial Domination Loïc Wacquant, 2024-06-07 Race is arguably the single most troublesome and volatile concept of the social sciences in the early 21st century. It is invoked to explain all manner of historical phenomena and current issues from slavery to police brutality to acute poverty and it is also used as a term of civic denunciation and moral condemnation. In this erudite and incisive book based on a panoramic mining of comparative and historical research from around the globe, Loïc Wacquant pours cold analytical water on this hot topic and infuses it with epistemological clarity, conceptual precision and empirical breadth. Drawing on Gaston Bachelard, Max Weber and Pierre Bourdieu, Wacquant first articulates a series of reframings starting with dislodging the United States from its Archimedean position in order to capture race making as a form of symbolic violence. He then forges a set of novel concepts to rethink the nexus of racial classification and stratification: the continuum of ethnicity and race as disguised ethnicity, the diagonal of racialization and the pentad of ethnoracial domination, the checkerboard of violence and the dialectic of salience and consequentiality. This enables him to elaborate a meticulous critique of such fashionable notions as structural racism and racial capitalism that promise much but deliver little due to their semantic ambiguity and rhetorical malleability, notions that may even hamper the urgent fight against racial inequality. Wacquant turns to deploying this conceptual framework to dissect two formidable institutions of ethnoracial rule in America: Jim Crow and the prison. He draws on ethnographies and historiographies of white domination in the postbellum South to construct a robust analytical concept of Jim Crow as caste terrorism erected in the late 19th century. He unravels the deadly symbiosis between the black hyperghetto and the carceral archipelago that has coproduced and entrenched the material and symbolic marginality of the African American precariat in the metropolis of the late 20th century. Wacquant concludes with reflections on the politics of knowledge and pointers on the vexed question of the relationship between social epistemology and racial justice. Both sharply focused and wide ranging, synthetic yet controversial, *Racial Domination* will be of interest to students and scholars of race and ethnicity, power and inequality, and epistemology and theory across the social sciences and humanities.

A Global History of Anti-Apartheid Anna Konieczna, Rob Skinner, 2019-04-15 This book explores the global history of anti-apartheid and international solidarity with southern African freedom struggles from the 1960s. It examines the institutions, campaigns and ideological frameworks that defined the globalization of anti-apartheid, the ways in which the concept of solidarity was mediated by individuals, organizations and states, and considers the multiplicity of actors and interactions involved in generating and sustaining anti-apartheid around the world. It includes detailed accounts of key case studies from Europe, Asia and Latin America which

illustrate the complex relationships between local and global agendas as well as the diverse political cultures embodied in anti apartheid Taken together these examples reveal the tensions and synergies transnational webs and local contingencies that helped to create the sense of being global that united worldwide anti apartheid campaigns The Routledge Handbook of Philosophy and Europe Darian Meacham,Nicolas de Warren,2021-03-31 Understood historically culturally politically geographically or philosophically the idea of Europe and notion of European identity conjure up as much controversy as consensus The mapping of the relation between ideas of Europe and their philosophical articulation and contestation has never benefitted from clear boundaries and if it is to retain its relevance to the challenges now facing the world it must become an evolving conceptual landscape of critical reflection The Routledge Handbook of Philosophy and Europe provides an outstanding reference work for the exploration of Europe in its manifold conceptions narratives institutions and values Comprising twenty seven chapters by a group of international contributors the Handbook is divided into three parts Europe of the philosophers Concepts and controversies Debates and horizons Essential reading for students and researchers in philosophy politics and European studies the Handbook will also be of interest to those in related disciplines such as sociology religion and European history and history of ideas **School of Racism** Catherine Larochelle,2023-12-01 Exposing the history of racism in Canada s classrooms Winner of the prestigious Clio Quebec Lionel Groulx and Canadian History of Education Association awards In School of Racism Catherine Larochelle demonstrates how Quebec s school system has from its inception and for decades taught and endorsed colonial domination and racism This English translation extends its crucial lesson to readers worldwide bridging English and French Canadian histories to deliver a better understanding of Canada s past and present identity Guided by postcolonial antiracist and feminist theories and methodologies Larochelle examines late nineteenth and early twentieth century classroom materials used in Quebec s public and private schools Many of these materials made their way into curricula across the country and contained textual and visual representations that constructed Indigenous Black Arab and Asian peoples as the Other while reinforcing the collective identity of Quebec and Canada more broadly as white School of Racism uncovers the ways Canada s education system has supported and sustained ideologies of white supremacy ideologies so deeply embedded that they still linger in school texts and programming today Offering insights into how concepts of nationalism and racism overlap Larochelle s innovative analysis helps educators confront discrimination in their classrooms and furthers discussions about race and colonialism in Canada *Images and the Making of the Russian Empire, 1471-1721* Valerie A. Kivelson,2025-09-18 Exploring the visual record of the Muscovite tsardom this book demonstrates that in imperial settings images actually do things Richly illustrated with 120 arresting little known images it considers how those images functioned as active agents for and against empire Images and the Making of the Russian Empire moves out from the throne room of the Kremlin to engravers workshops of Chernihiv and Kyiv to the Amur River basin to the icy peaks of Kamchatka wherever imagery and empire intersected which was everywhere The book

presents an unexpected array of pictorial material including Muscovite illuminated histories Ukrainian political theological prints and Siberian reindeer herders pictographic signature marks Valerie A Kivelson demonstrates how pictures created by conquerors and conquered by elites and subjects by the powerful and the disempowered advanced and shaped the tsardom as it grew into an ethnically and religiously diverse empire in ways that have remained unnoticed until now Through its novel visual methodology it offers original perspectives on both Moscow s ambitions and the ways in which populations coming under tsarist control pushed back and reshaped the regime s own understanding of what it meant to be an imperial state
