

American Civil War Research Paper

The deadliest war in American history is known as the American Civil War killing nearly 620,000 soldiers and a mass amount of civilians. The War Between the States was fought between Southern slave states and the United States federal government. Southern states formed a group called the Confederacy, which went against the beliefs of the Union. Jefferson Davis of the Confederate States of America and Abraham Lincoln sought different views on slavery.

Lincoln believed that all slaves should be emancipated and advocated the restoration of the Union. The Fugitive Slave Law of 1850 supported the belief that all slaves who escaped, once captured were to be returned to their owners. This led to the 'War Governors' Conference on September 25, 1862 which included the meeting of thirteen Union governors who conversed between many different aspects of the war. The importance of this meeting routed from the war and the downfall that Abraham Lincoln was witnessing in the United States. As they discussed many reasons to abolish slavery, they believed that a substantial win would help the announcement of the proclamation. Slavery had a significant impact on society in a moral and economical aspect. The money had "strengthened the American economy in the north and south.

" Economically slaves who worked on plantations changed the agricultural society. The shift went from the agricultural society to a more advanced industrial society. This then caused the downfall of the Confederate States of America. "Slaves were known as contraband, or illegal imports to represent the captured slaves, and with the impact of Lincoln, he was able to present the theory of emancipation that took away the view of slaves as property and allowed the states to control the territory within their borders. When the proclamation was first issued, it did not free all slaves. Delaware, Kentucky, Maryland and Missouri had not succeeded from the union. The collapse of the Confederate States of America forced slaves to free away from the plantations.

The emancipation of the rebellion areas was essential to end the ongoing secession that was going on in the United States. Lincoln wanted to "endorse the emancipation on the state level. " The belief of equality towards all individuals is one aspect that Lincoln promoted. At the beginning of the Civil War, Lincoln's main goal was to preserve the union, and in time the theory of emancipation came into effect. Lincoln supported the rights of each individual and the "equality of all humans that demanded and abolishment of slavery. " Releasing slaves all at once was not something that would have been immediately effective, so Lincoln approached the situation in a structured manner. After the Union had won at Antietam, he set fourth a deposition to the Confederate states stating that if the return of the Union was not met, that the remaining slaves would be free.
