

(Gupta, 1976). Endogamy is marriage to several wives or husbands from the same family, community, tribe, or social group.

Since the advent of marriage, marriage scenarios have immensely changed across different cultures and societies across the world. Women have since been given equal marriage right has men. During the medieval period, women were faced full responsibility of their marriages and religion. On numerous occasions, marriages have been significantly pegged on other several reasons other than love. In some cases, economic liaison was taken to be the main reason behind marriages. In most cases, there were dowry as well as proxy marriages. In the case of dowry marriages, bride and his family are expected to pay dowry to the family of the groom. The dowry may be in the form of money or present (Appelbaum, 1995). However, there some cultures that requires the groom's family to pay dowry to the bride. Significantly, few marriages in the world require any sort of courtship or dating.

Despite differences in nature and types of marriages, the culture of engagement ring is a universal customary in marriage. The use of engagement ring can be traced back from the ancient Roman. There was a belief that the roundness of the ring represented the concept of an eternal relationship (Gupta, 1976). Additionally, there is a belief that the ring and the adorn finger ring directly connects the nerves and the heart. Marriage is considered a secret bond, as opposed to physical connectivity (Allendorf and Ghimire, 2012). Notably, Saint Paul once compared the marriage relationship to the relationship between Christ and the Church.
