personal convictions Familiar choruses are now resonating throughout Christian communities Meat eating isn't compassionate Animals have rights too Aren't you concerned about animal suffering We should include animals into the moral community Would you kill and eat your dog Lassie In response to this clamor Castle Quay Books has brought together a broad group of scholars who have applied their expertise in a wide range of fields including biblical studies theology philosophy resource management communication and generational animal farming to write an accessible response for all Christians Contributors to the discussion cover both sides of the debate with their host of important views Writers include well known authors such as Dr Walter Kaiser Dr Wes Jamison and Dr Paul Copan as well as other well known authors
