The Teacher Clarity Playbook has been recognized for focusing on practices that have high effect sizes and will help you translate the groundbreaking Visible Learning research into practice. When educators use strategies that have high effects greater than 0.40, they can accelerate student achievement. The power of the Visible Learning research lies in helping educators understand which factors have the highest impact on student achievement so that educators can begin making strategic decisions based on evidence that will utilize their time, energy, and resources to the best extent possible. The Visible Learning research is based on Professor John Hattie's unmatched meta-analysis of more than 1600 research reviews comprising 95,000 studies involving more than 300 million students, the world's largest evidence base on what works best in schools to improve student learning. From that research, Dr. Hattie identified more than 250 factors that have an impact on student achievement. View a full list of Visible Learning Supporting Resources.
