Fisher, 2006-09-30 The National Drug Control Policy has failed its two major functions supply reduction and demand reduction due to faulty assumptions regarding nearly every aspect of the alcohol and drug fields charges author Fisher Yet in spite of overwhelming evidence of this failure policy makers have strongly resisted discussing major changes to the assumptions that underly current policy because of political pressure bias and philosophical intransigence he adds Fisher discusses controversial topics and defends uncommon approaches in chapters focused on subjects including legalization

harm reduction the futility of supply reduction the problem of underage drinking and effectiveness of treatment and prevention He proposes a new national policy for drug control including elimination of the war metaphor inclusion of alcohol in the mandate conceptualization of addiction as a public health problem utilization of harm reduction principles to guide policy and discontinuation of approaches that isolate drug and alcohol problems from their connection to broader social issues such as poverty In this work the premises of the current National Drug Control Strategy are challenged and both Democratic and Republican administrations across the last 10 years are critically examined Statements of the Director of the Office of National Drug Control Strategy are critiqued Major points include that there is no evidence the NDCS has achieved any of its goals that harm reduction should be its guiding principle and supply reduction should not be part of the national strategy *Rethinking Development Challenges for Public Policy* K. Hanson,G. Kararach,T. Shaw,2012-04-05 Covers topical issues for Africa s development economics and politics of climate change water management public service delivery and delivering aid The authors argue that these issues should be included in the post MDG paradigm and add an important voice to recent moves by academics and practitioners to engage with each other *Resources in Education* ,2000-04

Rethinking Gender, Crime, and Justice Claire M. Poison Ivy Evan Mandery, 2025-03-18 Hailed as a staggering portrait of inequality in America Philip Dray Poison Ivy tells the bigger seedier story of how elite colleges create paths to admission available only to the wealthy despite rhetoric to the contrary In a lively and trenchant Washington Monthly account Evan Mandery a Harvard graduate and current professor at a public college that serves low and middle income students reveals how tacit agreements between exclusive Ivy plus schools and white affluent suburbs create widespread de facto segregation And as a college degree continues to be the surest route to upward mobility the inequality bred in our broken higher education system is now a principal driver of skyrocketing income inequality Mandery contrasts the lip service paid to opportunity by so many elite colleges and universities with schools that actually walk the walk Now in an accessible paperback format Poison Ivy is a no holds barred takedown Forbes that synthesizes fascinating insider information on everything from how students are evaluated unfair tax breaks and questionable fundraising practices to suburban rituals testing tutoring tuition schemes and more This bold provocative indictment of America's elite colleges shows us exactly what's at stake and what will be possible if we muster the collective will to transform it Metropolitan Lives Rebecca Zurier, Robert W. Dowdall,2023-07-03 Drinking is recognized as one of the most important problems confronting students on campus today with major impacts on health and safety This book answers crucial questions about why students drink examines its complex links to campus crime and sexual assault and offers new insights on how to address the issue It differs from other studies of college drinking by dispelling the myth that the problem is universal Dowdall s research reveals that the incidence of alcohol abuse varies enormously between colleges and in doing so identifies interventions and policies that have been effective and those that have failed His study is also unique in looking upstream at the broader cultural organizational and social forces that shape this behavior where most studies focus only on downstream behaviors well after students have selected their college and have started drinking Students and parents can take action to lower the risk of binge drinking by following the book s recommendations and consulting the data it provides about alcohol violations and crime at thousands of colleges For administrators and student affairs personnel it both defines and illuminates the issue and outlines effective interventions
