Revelation by the Book Steve Davis,2022-11-23 The vast majority of Christians are confused and uncertain about the book of Revelation and it is no wonder Ten different Bible commentators can present twelve different points of view on Revelation Bible teachers just adopt the viewpoint of their favorite Bible commentator Pastors tend to preach to the view point they were taught in seminary by a respected professor Ninety nine percent of pastors and Bible teachers are not dogmatic about their view of Revelation and will profess that each of the various interpretations has merit but this is an unacceptable position Logically there can be only one correct interpretation of the book of Revelation The desire to find the one true interpretation of Revelation has been with me since I first began reading the Bible over twelve years ago After years of prayer study research and contemplation the fog of confusion began to clear The key is quite simple and yet difficult in that it is most elusive The key to unlocking Revelation is a complete trust in God

A History of the World in 12 Maps Jerry Brotton,2013-11-14 A New York Times Bestseller Maps allow the armchair traveler to roam the world the diplomat to argue his points the ruler to administer his country the warrior to plan his

campaigns and the propagandist to boost his cause rich and beautiful Wall Street Journal Throughout history maps have been fundamental in shaping our view of the world and our place in it But far from being purely scientific objects maps of the world are unavoidably ideological and subjective intimately bound up with the systems of power and authority of particular times and places Mapmakers do not simply represent the world they construct it out of the ideas of their age In this scintillating book Jerry Brotton examines the significance of 12 maps from the almost mystical representations of ancient history to the satellite derived imagery of today He vividly recreates the environments and circumstances in which each of the maps was made showing how each conveys a highly individual view of the world Brotton shows how each of his maps both influenced and reflected contemporary events and how by considering it in all its nuances and omissions we can better understand the world that produced it Although the way we map our surroundings is more precise than ever before Brotton argues that maps today are no more definitive or objective than they have ever been Readers of this beautifully illustrated and masterfully argued book will never look at a map in quite the same way again A fascinating and panoramic new history of the cartographer s art The Guardian The intellectual background to these images is conveyed with beguiling erudition There is nothing more subversive than a map The Spectator A mesmerizing and beautifully illustrated book The Telegraph

Eerdmans Commentary on the Bible: Daniel Iain Provan, 2019-06-18 This extract from the Eerdmans Commentary on the Bible provides Provan's introduction to and concise commentary on Daniel The Eerdmans Commentary on the Bible presents in nontechnical language the best of modern scholarship on each book of the Bible including the Apocrypha Reader friendly commentary complements succinct summaries of each section of the text and will be valuable to scholars students and general readers Rather than attempt a verse by verse analysis these volumes work from larger sense units highlighting the place of each passage within the overarching biblical story Commentators focus on the genre of each text parable prophetic oracle legal code and so on interpreting within the historical and literary context The volumes also address major issues within each biblical book including the range of possible interpretations and refer readers to the best resources for further discussions

Moral Rationalism and Shari'a Ali-Reza Bhojani, 2015-03-24 Moral Rationalism and Shari'a is the first attempt at outlining the scope for a theological reading of Shari'a based on a critical examination of why Adliyya theological ethics have not significantly impacted Sh readings of Shari'a Within Sh works of Shari'a legal theory usul al fiqh there is a theoretical space for reason as an independent source of normativity alongside the Qur'an and the Prophetic tradition The position holds that humans are capable of understanding moral values independently of revelation Describing themselves as Adliyya literally the people of Justice this allows the Shari'a who describe themselves as Adiliyya literally the People of Justice to attribute a substantive rational conception of justice to God both in terms of His actions and His regulative instructions Despite the Shari'a adoption of this moral rationalism independent judgments of rational morality play little or no role in the actual inference of Shari'a norms within mainstream contemporary Shari'a thought Through a close examination of the notion of independent rationality as a source in modern Shari'a usul al fiqh the obstacles preventing this moral

rationalism from impacting the understanding of Shar'a are shown to be purely epistemic. In line with the emic insider approach adopted, these epistemic obstacles are revisited identifying the scope for allowing a reading of Shar'a that is consistent with the fundamental moral rationalism of Shari'ah thought. It is argued that judgments of rational morality even when not definitively certain cannot be ignored in the face of the apparent meaning of texts that are themselves also not certain. An Adliyya reading of Shar'a demands that the strength of independent rational evidence be reconciled against the strength of any other apparently conflicting evidence such that independent judgments of rational morality act as a condition for the validity of precepts attributed to a just and moral God.
