Physical Assessment of the Newborn Ellen P. Tappero, Mary Ellen Honeyfield, 2014-09-01 Physical Assessment of the

Newborn 5th Edition is a comprehensive text with a wealth of detailed information on the assessment of the newborn. This valuable and essential resource illustrates the principles and skills needed to gather assessment data systematically and accurately and also provides a knowledge base for interpretation of this data. Coverage addresses gestational assessment, neurologic assessment, neonatal history, assessment of the dysmorphic infant, and systemic evaluation of individual body systems, as well as key information on behavioral and pain assessment, including the use of specific tools with various groups ranging from term to extremely preterm infants. Numerous tables, figures, illustrations, and photos, many of them in full color, are a major strength that enhances the book's usefulness as a clinical resource. The text is an excellent teaching tool and resource for anyone who performs newborn examinations, including nurses, neonatal and pediatric nurse practitioners, nurse midwives, physicians, and therapists. It can also serve as a core text for any program preparing individuals for advanced practice roles in neonatal care.

KEY FEATURES An authoritative and renowned text that comprehensively addresses all key aspects of newborn assessment. Provides a well-ordered evaluation of individual body systems. Assists the practitioner in identifying infant state, behavioral clues, and signs of pain, facilitating individualized care. Comprehensively addresses the tremendous range of variation among newborns of different gestational ages. The content is amplified by numerous photos and illustrations, many in full color. Includes Power Point slides and an Image Bank.

The Student Guide to the Newborn Infant Physical Examination Tracey Jones, 2019-08-09 This concise guide offers a comprehensive step by step framework for midwifery students to learn about all aspects of the newborn infant physical examination. NIPE, a screening assessment completed on all babies between 6 and 72 hours of age. The Student Guide to the Newborn Infant Physical Examination encourages the reader to approach the examination in a system-based format with case studies and practice tips to support learning. The book offers evidence-based, well-illustrated assessment tools which take into account the national screening committee standards and is written by authors with both academic and clinical experience. A clear direction on how to perform the NIPE in practice while exploring the wider context of screening in healthcare today. Coverage of the changing role of the midwife and the importance of understanding the whole context of the mother's care, health promotion, and starting the practitioner-parent conversation. The Student Guide to the Newborn Infant Physical Examination is a core text for all pre-registration midwifery students and a useful resource for qualified midwives, neonatal nurses, and practice nurses.
