Why Vietnam Margaret Colbert Brown, 2025-03-30 Explores the complex reasons behind the USA's involvement in Vietnam analyzing political social and military factors The reasons behind the USA's involvement in Vietnam remain a subject of extensive debate Initially America supported the French until their defeat at Dien Bien Phu which then shifted to backing the South Vietnamese government due to fears of communism spreading throughout Southeast Asia Why Vietnam delves into the myriad reasons for US involvement examining theories that date back to 1918 when Woodrow Wilson ignored Ho Chi Minh's plea for independence at the Treaty of Versailles through to Johnson's full commitment to the undeclared war which restrained the military to a defensive role in protecting South Vietnam instead of an offensive one that

would send troops across the DMZ into Laos and Cambodia The questions of why the USA became involved whether their involvement was justified and if the war was ever winnable have been fiercely debated for over 50 years This book seeks to address these whys by providing a thorough examination of all contributing factors from presidential actions to foreign policy and the social and political climates of the war era

Marr,1984-02-03 Despite the historical importance of the Vietnam War we know very little about what the Vietnamese people thought and felt prior to the conflict Americans have tended to treat Vietnam as an extension of their own hopes and fears successes and failures rather than addressing the Vietnamese record In this volume

David Marr offers the first serious intellectual history of Vietnam focusing on the period just prior to full scale revolutionary upheaval and protracted military conflict. He argues that changes in political and social consciousness between 1920 and 1945 were a necessary precondition to the mass mobilization and people's war strategies employed subsequently against the French and the Americans. Thus he rejects the prevailing notion that Vietnamese success was primarily due to communist techniques of organization. However, Vietnamese Tradition on Trial goes beyond simply accounting for anyone's victory or defeat to an informed description of intellectual currents in general. Replying for his information on a previously ignored corpus of books, pamphlets, periodicals and leaflets, the author isolates eight issues of central concern to twentieth century Vietnamese. The new intelligentsia, indubitably the product of a peculiar French colonial milieu, yet never divorced from the Vietnamese past and always looking to a brilliant Vietnamese future, spearheaded every debate beginning in 1925. After 1945, Vietnamese intellectuals either placed themselves under ruthless battlefield discipline or withdrew to private meditation. David Marr suggests that the new problems facing Vietnamese today make both of these approaches anachronistic. Whether the Vietnam Communist Party will allow citizens to subject received wisdom to critical debate to formulate new explanations of reality to test those explanations in practice is the essential question lingering at the end of this study.

International News Agencies Michael B. Palmer, 2020-01-02 International news agencies such as Reuters, the Associated Press and Agence France Presse have long been unsung heroes of the media sphere. From the mid nineteenth century in Britain, the US, France and to a lesser extent Germany, a small number of agencies have fed their respective countries with international news reports. They informed governments, businesses, media and indirectly the general public. They helped define news. Drawing on years of archival research and first hand experience of major news agencies, this book provides a comprehensive history of the leading news agencies based in the UK, France and the USA from the early 1800s to the present day. It retraces their relations with one another, with competitors and clients, and the types of news information and data they collected, edited and transmitted via a variety of means from carrier pigeons to artificial intelligence. It examines the sometimes colourful biographies of agency newsmen and the rise and fall of news agencies as markets and methods shifted, concluding by looking to the future of the organisations.

The Ledger David Kilcullen, Greg Mills, 2022-01-15 These things happened They were glorious and they changed the world said Charlie Wilson of America's role backing the anti Soviet mujahideen And then we fucked up the endgame With no support for Afghanistan after that war the vacuum was filled by the Taliban and bin Laden The Ledger assesses the West's similarly failed approach to Afghanistan after 9 11 in military diplomatic political and developmental terms Dr David Kilcullen and Dr Greg Mills are uniquely placed to reflect backwards and forwards on the Afghan conflict they worked with the

international mission both as advisers and within the Arg and they have considerable experience of counterinsurgency and stabilization operations elsewhere in the world Here these two experts show that there is plenty of blame to go around when explaining the failure to bring peace to Afghanistan after 9 11 The signs of collapse were conveniently ignored in favor of political narratives of progress and success Yet for Afghans the war and its geopolitical effects are not over because NATO is gone Afghanistan remains globally connected through digital communications and networks This vital book explains why and where failings in Afghanistan happened warning against exceptionalist approaches to future peacebuilding missions around the globe
