employs the Renaissance starting point of the turn to the subject This study demonstrates how St Francis arrives inductively at what St Thomas demonstrated deductively namely the essential relationship of freedom to the good Along with this Thomistic influence the author analyses the Salesian indebtedness to Augustinian anthropology which explains the primacy St Francis gives to the will and consequently to love Love understood as the heart's movement towards the good allows the Salesian approach to move beyond the confines of a traditional faculty psychology to embrace a more biblical understanding of the human person This examination of love's relationship to freedom reveals their teleological and archaeological natures coming back to our origins wherein we discover the source of our freedom bestowed on us as a gift from God Catalogue of Printed Books British Museum,1889 The Reading and Preaching of the Scriptures in the Worship of the Christian Church, Volume 4 Hughes Oliphant Old,2002-05-02 Covering the story of preaching from the Protestant Reformation to the end of the 17th century the latest volume in this series covers not only what the Reformers preached but also the reform of preaching itself **Mystical Flora of St. Francis de Sales** Saint Francis (de Sales),2003 A perfect treatise on the devout life from its first faltering steps to its fulfilment following the principles set out by the saint in his ascetical writings ,
