The League of Extraordinary Gentlemen Nemo Alan Moore, Kevin O'Neill, 2017-12-20 Esta vez nos trasladamos a 1925 Han pasado 15 largos años desde que Janni Dakkar intentara por primera vez escapar del legado de su moribundo padre científico y pirata por igual asumir su destino como el nuevo Nemo capitán del legendario Nautilus Ahora agotada de la interminable juerga de saqueo y destrucción Janni emprende una gran expedición para lograr una meta que su padre no pudo obtener explorar la Antártida Tras su pista irán un trío de geniales inventores contratados por un influyente magnate del sector editorial para restaurar los tesoros expoliados a una reina africana Ser una carrera mortal hacia el último rincón de la Tierra un lugar mítico lleno de maravillas y horrores donde el tiempo está roto y las montañas te llevan a la locura Una mezcla de Julio Verne más H P Lovecraft en este final inolvidable perdido en el palpitante y espantosamente inhumano corazón de hielo Alan Moore es uno de los motores creativos más importantes de la historia de los cómics Sus innovadores trabajos V de Vendetta Watchmen o From Hell se han convertido en piezas imperecederas del paisaje cultural contemporáneo El autor es ganador de más premios y reconocimientos de los que pueden contarse Título original The League of Extraordinary Gentlemen Nemo Heart of Ice

Never-Ending Watchmen Will Brooker, 2023-09-07 What began with Alan Moore and Dave Gibbons landmark graphic novel Watchmen 1987 is no longer a single story but rather a cross platform multi media franchise including a role playing game and video game a motion comic a Zack Snyder movie and a series of comic book prequels and sequels as well as a prestige HBO TV series Will Brooker explores the way that Watchmen expanded over time from the mid 1980s to the present day drawing on theories of adaptation intertextuality and deconstruction to argue that each addition subtly changes our understanding of the original Does it matter whether these adaptations are faithful Can they ever be as they cross over into another medium How does each version enter a dialogue with the others And as Damon Lindelof's series ran parallel to an entirely distinct comic book Watchmen sequel Doomsday Clock how do readers and viewers make sense of these conflicting narratives Can we relate the unstable shifting stories of Watchmen to our contemporary climate of post truth where we have to weigh up contradictory versions of the facts and decide which we believe

Magic Words Lance Parkin, 2013-11-07 For

over three decades comics fans and creators have regarded Alan Moore as a titan of the form With works such as V for Vendetta Watchmen and From Hell he has repeatedly staked out new territory attracting literary plaudits and a mainstream audience far removed from his underground origins His place in popular culture is now such that major Hollywood players vie to adapt his books for cinema Yet Moore's journey from the hippie Arts Labs of the 1970s to the bestseller lists was far from preordained A principled eccentric who has lived his whole life in one English town he has been embroiled in fierce feuds with some of the entertainment industry's biggest corporations And just when he could have made millions ploughing a golden rut he turned instead to performance art writing erotica and the occult Now as Alan Moore hits sixty it's time to go in search of this extraordinary gentleman and follow the peculiar path taken by a writer quite unlike any other

Breaking the Frames Marc Singer, 2019-01-09 Comics studies has reached a crossroads Graphic novels have never received more attention and legitimation from scholars but new canons and new critical discourses have created tensions within a field built on the populist rhetoric of cultural studies As a result comics studies has begun to cleave into distinct camps based primarily in cultural or literary studies that attempt to dictate the boundaries of the discipline or else resist disciplinarity itself The consequence is a growing disconnect in the ways that comics scholars talk to each other or more frequently do not talk to each other or even acknowledge each other's work Breaking the Frames Populism and Prestige in Comics Studies surveys the current state of comics scholarship interrogating its dominant schools questioning their mutual estrangement and challenging their propensity to champion the comics they study Marc Singer advocates for greater disciplinary diversity and methodological rigor in comics studies making the case for a field that can embrace more critical and oppositional perspectives Working through extended readings of some of the most acclaimed comics creators including Marjane Satrapi Alan Moore Kyle Baker and Chris Ware Singer demonstrates how comics studies can break out of the celebratory frameworks and restrictive canons that currently define the field to produce new scholarship that expands our understanding of comics and their critics
