

Netopia 3300-VGx Series

VGx Technology

Netopia's VGx technology provides advanced service segmentation while ensuring high-quality voice and broadband-quality video.

Affordable for Mass Deployment

Full-featured gateways enable revenue-generating triple-play services in a scalable, manageable, and affordable platform.

High Throughput

High-speed ADSL2+ and high-throughput Ethernet WAN interfaces support higher-speed DSL and fiber-optic access networks.

Netopia® 3300-VGx Series

Triple Play Broadband Gateways with Netopia VGx Virtual Gateway Technology

VGx Virtual Gateway Technology

Netopia's VGx technology allows a single Netopia VGx-enabled broadband gateway to act as separate virtual gateways, treating each individual service as a single service "channel." The VGx-enabled gateway applies specific policies, routing, and prioritization parameters to each service channel, ensuring delivery of that service to the appropriate peripheral device with the requisite level of QoS and correct feature sets – making it ideal for delivery of triple-play voice, video, and data services.

Netopia's 3300-VGx Series Triple Play Gateways are designed specifically to allow service providers to deploy the lucrative triple play of voice, video, and data services.

Featuring Netopia's innovative VGx Virtual Gateway Technology, the 3300-VGx series is a full-featured yet affordable platform that incorporates advanced Quality of Service (QoS) algorithms and the ability to segment each service into a separate, manageable service "channel." The Netopia 3300-VGx series enables feature-rich broadband home networking, along with integrated voice and video services.

The wired 3300-VGx models are ideal for cost-sensitive deployments, combining a high-speed WAN interface with a four port 10/100 managed Ethernet switch. The Wi-Fi 3300-VGx models deliver more home networking options, combining a built-in high-speed WAN interface, 802.11g wireless access point, and managed 10/100 Ethernet switch into a single broadband networking solution. With Netopia 3-D Reach technology, the Wi-Fi models deliver industry-leading indoor wireless range and coverage.

The complete line of VGx gateways leverage high-performance features, LAN networking options, and QoS intelligent firmware to support the widest range of home networking applications and services, including IPTV set-top boxes, VoIP phone systems, Wi-Fi VoIP handsets, digital video recorders (DVRs), PCs, game consoles, PDAs, or other wired or wireless devices.

When paired with Netopia's comprehensive suite of service management applications, the 3300-VGx series provides a superior service delivery mechanism for significantly increasing service provider revenues and reducing operational costs.
