The Machinery of School Internationalisation in Action Laura C. Engel, Claire Maxwell, Miri Yemini, 2019-10-21 Drawing on scholarship from the field of internationalisation in higher education and other theoretical influences in education policy comparative education and sociology of education this edited collection offers a much needed extension of discussion and research into the compulsory schooling context In this book established and emerging scholars provide an authoritative set of conceptual tools for researchers in the field of internationalisation of compulsory schooling It provides an overview of the current knowledge base and ways in which future research could engage with gaps in understandings Through detailed case studies of the multiple forms of internationalisation present within schools and schooling systems the volume considers why and how processes of internationalisation are shaping compulsory schooling today This book will offer scholars and educators a clearer more coherent set of conceptual frameworks within which to position their work in sociology of education and international and comparative education helping to develop a more comprehensive understanding of the many ways compulsory schooling is being internationalised and with what consequences *Leveraging Mutual Aid for Effective Emergency Response* United States. Congress. House. Committee on Homeland Security. Subcommittee on Emergency Communications, Preparedness and Response, 2009 **Breakthrough Leadership** Alan M. Blankstein, Marcus J. Newsome, 2020-08-25 Now is the time for Breakthrough Leadership This book was borne out of urgency We face the consequences of a raging pandemic coupled with an unprecedented call to end racial injustice COVID 19 has exposed longstanding structural inequities while at the same time offering a rare breakthrough opportunity to dismantle inequitable systems that have harmed our most marginalized students for generations Breakthrough Leadership is rooted in moral courage and calls us to act upon a new discovery or epiphany about a fundamental truth that challenges previous beliefs While this book offers examples of schools that were beating the odds pre COVID 19 as well as strategies for changing those odds in the future Breakthrough Leadership also spotlights professionals now leveraging crises like this to shape local and national priorities toward a more equitable and healthy society for our children in order to Create and sustain Equitable Learning Communities ELCs that are grounded in relational trust Establish comprehensive systems to ensure that all students thrive Implement cutting edge principles of effective curriculum instruction and assessment including culturally responsive teaching trauma informed practice and blended learning Meaningfully engage families and community Leadership from the classroom to the board room is needed to advance an agenda of equitable and successful outcomes for our students The facts stakes couldn't be starker Good leadership saves lives both in pandemics and in our profession The critical variable that determines whether or not our schools can respond adequately to the numerous challenges that they and their children face is leadership This book is about the work of such leaders In big cities small towns and rural areas a small number of principals and superintendents are showing that progress can be made when leaders have the resourcefulness and courage

to address equity challenges directly The educational leaders profiled in this book have a clear sense of how to systematically build the capacity of teachers and schools to meet the needs of the students they serve I urge other leaders to learn from them so that great schools that serve all children well will be the norm rather than the exception Pedro Noguera With all its devastation COVID 19 also presents the opportunity of the century to transform the public education system that to say the least has become stalled and stagnant in the past 50 years Breakthrough Leadership makes a significant contribution to our next phase which must be one of definable and targeted transformation of equity based learning Michael Fullan
