La ciencia de Cervantes Vicente Pérez de León, 2022-10-31 La vía del conocimiento de la filosofía natural contrarreformista estuvo condicionada por la necesidad de conciliar el método escolástico con el experimental a la luz de la evidencia de los nuevos descubrimientos científicos y geográficos La cosmovisión oficial hizo uso de metodologías del saber basadas en discursos como el antisupersticioso en el que se apuntaba a la confluencia de métodos experimentales religiosos y jurídicos orientados hacia una interpretación más precisa de la realidad En La ciencia de Cervantes se confirma cómo en pasajes que describen exorcismos interacciones entre animales y seres humanos y exploraciones geográficas de obras cervantinas como Don Quijote Persiles y Sigismunda y las Novelas ejemplares la confluencia de visiones artísticas y científicas de la época se pone de manifiesto Llama la atención especialmente el caso del Coloquio de los perros en donde se evidencia un intento de conciliar el conocimiento humanista escolástico antisupersticioso y barroco en línea con otras excepcionales obras neoplatónicas similares como son tanto el Somnium de Maldonado como el de Kepler The Counter reformation path to natural philosophy was increasingly conditioned by its need to reconcile the scholastic method with the experimental one at the light of the evidence of new scientific and geographic discoveries Official world view was supported by approaches to knowledge such as the anti superstitious discourse which were sustained by the confluence of experimental religious and legal methodologies in support of a more accurate interpretation of reality La

ciencia de Cervantes shows how selected cervantine texts including the Quixote Persiles and Sigismunda and the Exemplary Novels reflect how the confluence of artistic and scientific views of the period was evidenced in the depiction among others of exorcisms animal human interactions and geographical explorations Particularly relevant is the case of the Colloquy of the Dogs showing an attempt to reconcile the conflictive confluence of Humanistic Scholastic anti superstitious and baroque knowledge in line with other unique Neoplatonist works such as Maldonado s and Kepler s Somnium

Contracts Between Ecclesiastical Entities According to Canon Law Joseph Clifford N. Ndi ,2018-08-28 Within ecclesiastical circles both from the perspective of legal practice and ordinary relational matters between ecclesiastical entities the theme of contract very scarcely occupies a place of prominence It is a situation that is due on the one hand and to a large extent to the fact that the canonisation of civil law on contracts c 1290 CIC 1983 has had the consequence of transferring the preoccupation of the entities on this matter to the domain of civil law Besides and still connected to the above is the tendency to attribute a merely pastoral relevance to their relationships with little or no reference to the juridic aspects inherent in these relationships It is a situation that is largely responsible for the crisis which do not uncommonly characterise some of these relationships as verified over the centuries particularly in the relationship between dioceses and religious institutes The issuance of various papal and conciliar exhortations before and after Vatican II as well as the normative instructions and legal provisions contained in various juridic documents most prominently cc 271 520 681 and 790 of CIC 1983 has gone a long way to dissipate some of the tensions of the past However the true nature of how the contractual relationship between ecclesiastical entities including the attendant issues of conceptual understanding civil status of ecclesiastical entities resolution of contractual disputes etc remains a matter of investigative interest for the canonist This is in a nutshell the substance of this research work The conclusions arrived at offer the reader an insight into the available untapped resources within the ecclesiastical legal system as well as some considerable possibilities which remain to be explored to the benefit of the subjects of canon law
