## **Rebeccas World By Terry Nation:**

*Rebecca's World* Terry Nation, 1994-06-27 It was the eleventh day of the school holidays and Rebecca was bored But events take a dramatic turn for the better or worse when she finds herself transported to a distant planet whose people are terrorized by jelly like monsters called Ghosts Suggested level primary intermediate Terry Nation Alwyn W. Turner, 2013-04-01 A splendidly entertaining biography of the British tv writer acclaimed for his invention of a fictional alien race for Doctor Who Dominic Sandbrook author of *State of Emergency The Way We Were Britain 1970 1974* The Daleks are one of the most iconic and fearsome creations in television history Since their first appearance in 1963 they have simultaneously fascinated and terrified generations of children their instant success ensuring and sometimes eclipsing that of Doctor Who They sprang from the imagination of Terry Nation a failed stand up comic who became one of the most prolific writers for television that Britain ever produced *Survivors* his vision of a post apocalyptic England so haunted audiences in the Seventies that the BBC revived it over thirty years on and *Blake's 7* constantly rumored for return endures as a cult sci fi classic But it is for his genocidal pepperpots that Nation is most often remembered and now more than 50 years after their creation they continue to top the Saturday night ratings Yet while the Daleks brought him notoriety and riches Nation played a much wider role in British broadcasting's golden age He wrote for Spike Milligan Frankie Howerd and an increasingly troubled Tony Hancock and as one of the key figures behind the adventure series of the Sixties including *The Avengers* *The Saint* and *The Persuaders* he turned the pulp classics of his boyhood into a major British export In *The Man Who Invented the Daleks* acclaimed cultural historian Alwyn W Turner explores the curious and contested origins of Doctor Who's greatest villains and sheds light on a strange world of ambitious young writers producers and performers without whom British culture today would look very different *Terry Nation* Jonathan Bignell, Andrew O'Day, 2004 This is the first academic study of the science fiction television devised and written by Terry Nation who wrote Dalek stories and other serials for Doctor Who and created the BBC's 1970s post apocalyptic space adventure series *Blake's 7* Back cover **Rebecca's World** Terry Nation, 1975 Senior novel lower secondary level **The Golden Age of Children's TV** Tim Worthington, 2024-10-24 For decades British children's TV was surely the finest entertainment in the world From *Thunderbirds* to *The Clangers* *Blue Peter* to *Magpie* *Camberwick Green* to *Tiswas* and *Captain Pugwash* to *The Magic Roundabout* there was a huge variety on offer for kids and adults to enjoy Now in *The Golden Age of Children's TV* Tim Worthington brings back the joy of those times and the programmes we loved sharing a deep dive behind the scenes of key programmes how they came about and the stories behind the shows From Saturday morning telly to teatime favourites discover everything you never knew about the programmes you loved as well as the gossip from behind the scenes Written with affection but also with a wry appreciation of the shortcomings of the times this is the hugely engaging and entertaining story of a key part of our pop culture from a time long before streaming and the internet when we sat down together to watch brilliant British telly **The New Puritans** Andrew

Doyle,2022-09-08 A sober but devastating skewering of cancel culture and the moral certainties it shares with religious fundamentalism Sunday Times Engaging incisive and acute The New Puritans is a deeply necessary exploration of our current cultural climate and an urgent appeal to return to a truly liberal society The puritans of the seventeenth century sought to refashion society in accordance with their own beliefs but they were deep thinkers who were aware of their own fallibility Today in the grasp of the new puritans we see a very different story Leading a cultural revolution driven by identity politics and so called social justice the new puritanism movement is best understood as a religion one that makes grand claims to moral purity and tolerates no dissent Its disciples even have their own language rituals and a determination to root out sinners through what has become known as cancel culture In The New Puritans Andrew Doyle powerfully examines the underlying belief systems of this ideology and how it has risen so rapidly to dominate all major political cultural and corporate institutions He reasons that to move forward we need to understand where these new puritans came from and what they hope to achieve Written in the spirit of optimism and understanding Doyle offers an eloquent and powerful case for the reinstatement of liberal values and explains why it s important we act now Teaching Art to Young Children 4-9 Rob Barnes,2002-11 This second edition of a classic and popular book includes new chapters figures and colour plates The book blends practical ideas with sound principles of art education For the teacher or trainee teacher looking for ideas there are plenty of tested classroom examples For those looking for firm principles of art teaching and best practice this book presents many important issues in art education with clarity and insight Based on first hand experience of teaching children the book uses many examples from the school situation Essential topics such as developing skills through using media how children draw producing original artwork developing ideas and Art and the digital image are tackled with realism and imagination An important feature is that these subjects are not seen in isolation but are purposefully linked with other areas of the curriculum The author s approach should encourage teachers to develop and think about art in the National Curriculum His writing shows a deep sympathy with children and sensitivity to the real task of teaching art to the young **Teaching Art to Young Children** Rob Barnes,2015-04-24 How can teachers develop best practice in art teaching This fully updated third edition of Rob Barnes classic text blends practical ideas with sound principles of art education Teachers and student teachers will find a range of ideas and tried and tested classroom examples whilst for those looking for firm principles of art teaching and best practice this book presents many important issues in art education with clarity and insight Based on first hand experience of teaching children this text uses many examples from early years and primary school contexts and tackles essential topics with realism and imagination such as developing skills through using media how children draw encouraging artistic confidence in children producing original artwork and making use of digital imagery Rob Barnes unique approach encourages teachers to develop and think about art as part of a rich curriculum of learning highlighting how it shouldn t be taught in isolation but with purposeful links to other areas of the curriculum **The British Library General Catalogue**
