**The Lewellyns from Vincennes** Robert Reece, 2022-09-17 The story of a twentieth century family whose lives are buffeted by personal losses two world wars the Great Depression family tragedies and triumphs The distant drumbeat of world events punctuates the fast moving narrative Jack the patriarch and his wife Sarah rear three children whose destinies are shaped by Jack's own failed aspirations and Sarah's steady determination and faith Based on a true story and told by Jack's twin brother Cyrus its tapestry is woven with invention of scenes and fictionalized dialogue It is ultimately a story of redemption and resilience To Tell the Truth

To Tell the Truth Robert M Reece, 2024-11-15 Testifying as an expert in emotionally laden child abuse cases is no easy task Dr Reece a retired Clinical Professor of Pediatrics has taught medical students residents and colleagues nationally and internationally about the diagnosis and management of child abuse cases for over forty years He crafted this book *To Tell the Truth* to illustrate countervailing arguments that jurors may hear in cases of abusive head trauma He hopes this will enable the reader to distinguish between fact and fiction in testimony A compelling story addressing an issue familiar to physicians who care for children but important to all of us A baby dies and the question of a sad natural death weighed against a homicide and who caused the death becomes a quagmire of truth and lies inherent in the justice system assigned to determine guilt or innocence Characters reflect personal attitudes and emotions creating glimpses into their humanity as the baby's case winds its way through an all too real courtroom drama The narrative of witnesses in the courtroom and tactics of attorneys brings the reader face to face with a startling reality sometimes criminal cases are influenced by more than the truth the whole truth and nothing but the truth Robert W Block MD FAAP Professor Emeritus Pediatrics The University of Oklahoma School

Reconciliation Commission in post apartheid South Africa and the pastoral care of victims of domestic violence She shows that an emphasis on unilateral and unconditional forgiveness puts disproportionate pressure on the victims of injustice or violence and misconstrues the very biblical passages especially in Jesus teaching and actions on which advocates of unconditional forgiveness rely Beating the Devil Out of Them Valerie Bentz,2017-07-28 Based on his studies of over 9 000 families Murray A Straus the foremost researcher on family violence in the world discusses the extent to which parents in the United States use corporal punishment such as spanking and slapping and its effects on their children The question of whether corporal punishment is an effective method of discipline is hotly debated Straus contends that this believed to be minor form of physical violence is precursor to much violence that plagues our world Children who are spanked quickly learn that love and violence can go hand in hand Since spanking is generally done by loving caring parents for the child's own good a child can learn that hitting is morally right Straus describes what he has learned through two decades of research children who are spanked are from two to six times more likely to be physically aggressive to become juvenile delinquents and later as adults to use physical violence against their spouses to have sadomasochistic tendencies and to suffer from depression Straus alerts parents to these risks and argues that spanking adversely affects not only the children who are subjected to it but society as a whole This groundbreaking book now available in paperback with a substantive new introduction and new concluding chapter is essential reading for parents as well as teachers lawyers and judges Professionals in fields such as social work child protection delinquency and criminology psychology and politics will find it of critical importance **What Happened to Christopher** Ann-Janine Morey,1998 Examines the trial of Gary Lynn Gould convicted in 1995 for the shaking death of nineteen month old Christopher Attig featuring interviews with the child's parents and grandparents as well as officials involved in the case and provides information about Shaken Baby Syndrome *Books and Pamphlets, Including Serials and Contributions to Periodicals* Library of Congress. Copyright Office,1977-07 *When Caregivers Kill* Betty L. Alt,Sandra K. Wells,2010-04-16 From mothers who kill their children in postpartum fugues to fathers who murder their kids for revenge against an estranged wife the stories in this book are chilling yet real and bring home the message that children are vulnerable to violence even in the care of those who should love and protect them the most Sadly child murder by parents and caregivers happens more frequently than one might guess and while each case is different there are often warning signs that something might be amiss Signs of physical abuse may precede the ultimate act of murder A mother's mental state after the birth of a child may signal true distress and the potential for extreme actions No one can predict with certainty when a parent or other caregiver may snap but here Alt and Wells examine many cases of child murder to find out what they have in common how we might prevent such violence and what more we can do to protect children in potentially explosive situations **Myers on Evidence in Child, Domestic, and Elder Abuse Cases** John E. B. Myers,2005-01-01 Investigating and litigating cases of interpersonal violence is difficult With child and elder abuse the vulnerability of the victim makes the work
