Grogan, 2014-02-18 The Persian Empire in English Renaissance Writing 1549 1622 studies the conception of Persia in the literary political and pedagogic writings of Renaissance England and Britain It argues that writers of all kinds debated the means and merits of English empire through their intellectual engagement with the ancient Persian empire **St. James Reference Guide to English Literature: The Romantic and Victorian periods** ,1985

Dismemberment in the Medieval and Early Modern English Imaginary Frederika Elizabeth Bain, 2020-11-23 The medieval and early modern English imaginary encompasses a broad range of negative and positive dismemberments from the castration anxieties of Turk plays to the elite practices of distributive burial This study argues that representations and instances of bodily fragmentation illustrated and performed acts of exclusion and inclusion detaching not only limbs from bodies but individuals from identity groups Within this context it examines questions of legitimate and illegitimate violence showing that such distinctions largely rested upon particular acts assumed symbolic meanings Specific chapters address ways dismemberments manifested gender human versus animal nature religious and ethnic identity and social rank The book concludes by examining the afterlives of body parts including relics and specimens exhibited for entertainment and education contextualized by discussion of the resurrection body and its promise of bodily reintegration Grounded in dramatic works the study also incorporates a variety of genres from midwifery manuals to broadside ballads *Braille Grade One and a Half* Books Library of Congress. Sobecki, 2008 A fresh and invigorating survey of the sea as it appears in medieval English literature from romance to chronicle hagiography to autobiography As the first cultural history of the sea in medieval English literature this book traces premodern myths of insularity from their Old English beginnings to Shakespeare's *Tempest* Beginning with a

discussion of biblical classical and pre Conquest treatments of the sea it investigates how such works as the Anglo Norman Voyage of St Brendan the Tristan romances the chronicles of Matthew Paris King Horn Patience The Book of Margery Kempe and The Libelle of Englyshe Polycye shape insular ideologies of Englishness Whether it is Britain's privileged place in the geography of salvation or the political fiction of the idyllic island fortress medieval English writers' myths of the sea betray their anxieties about their own insular identity their texts call on maritime motifs to define England geographically and culturally against the presence of the sea New insights from a range of fields including jurisprudence theology the history of cartography and anthropology are used to provide fresh readings of a wide range of both insular and continental writings
