- Inconsiderate people
- Having to share

Short Term Goals

- Learn to be okay with sharing with others
- Learn to acknowledge differences between peers and authority, whilst maintaining respect

Long Term Goals

- Stay calm in all social situations
- Cope with anger effectively, and without conscious effort

Plan

Thomas has been provided with breathing techniques to help him going forward, as well as a journal to encourage a track record to use for CBT.

I will meet with Thomas in 2 weeks on 12/12/2022 to continue with his therapy. This will include working on CBT in greater detail, using insights from his journal that he is willing to share. Reassessment of future interventions will also be conducted if no improvements are made.

Intervention

To aid in successfully managing Thomas' anger, it is advised he considers breathing techniques for emotional regulation, as well as cognitive behavioral therapy.

This can work towards regulating his emotions, and changing his negative pattern of thinking that induces rage. Working towards a more positive mindset, and a ruminative one that prompts thinking before acting or speaking.

Response

Thomas responded well to breathing techniques, and managed to maintain steady rhythms and increased concentration.

I have also introduced some CBT when it comes to how he approaches situations. We practiced with what-if scenarios, in which he struggled at first, but produced some promising results.
