Perceptions Of Discourse The Revolution In Assumptions:

Perceptions of Discourse: The Revolution in Assumptions Dorothy Naor, 2014-12-12 This book was ready to go except for the final editing nearly 14 years ago when suddenly other events entered my life that took all my energy and time Apparently no one else in the interim has touched on the subject Because I was loathe to let 15 or so years of research go to waste and because I think that the history might be interesting and perhaps also useful to others and also because I suddenly realized that I am now in my 80s and would not be around forever I have finally taken time off to publish As for my sources which extend from about the 16th century till the late 1980s I have decided against updating them Those included in these pages serve the purpose of this study which is about a revolution in assumptions about discourse that began in the USA in the 1920s and became the institution in the 1980s in schools universities and in our perceptions of discourse in general The tale in these pages also covers the more important consequences of the revolution Communication in the Jewish Diaspora

Menahem Blondheim, Hananel Rosenberg, 2020-09-16 The Jewish diasporic experience stands out in its remarkable scope duration and cohesiveness Communication is the dynamic mechanism that negotiates the interplay of these factors hence this volume on Jewish Diasporic Communications The Jewish Diaspora is unique in another way too through most of their exilic experience Jews did not have a geographical center to which they could orient themselves The perspective guiding this volume is that the center of the Jewish Diaspora has been the communicative network linking its scattered communities in space and the media serving its continuity through historical time This Diasporic network has sustained a common flow of shared content between Jews and Jewish communities let alone the imagination of connectedness Thus Diaspora Jews as Jews and the People they comprise existed to invoke John Dewey in communication The studies in this volume spanning antiquity and modernity and crossing disciplinary boundaries provide together a broad ranging and in depth account of how a People can survive for millennia without a homeland but in communication *The Revolutionary Rhetoric of Hamilton* Jacob

Justice, Nancy J. Legge, Luke Winslow, 2022-09-09 This scholarly exploration of Hamilton encourages audiences to interpret this popular culture force in a new way by revealing that the musical confronts conventional perceptions of American history racial equity and political power Contributors explore the ways in which the musical offers social commentary on issues such as immigration and gender equity as well as how Hamilton re considers the roles of theatre in making social statements especially relating to the narrator the curtain speech and musical traditions Several chapters directly address recent controversies and conversations surrounding Hamilton including the CancelHamilton trend on social media the musical's depiction of slavery and its intersections with the Black Lives Matter movement Employing multiple novel theoretical approaches and perspectives including public memory feminist rhetorical criticism disability studies and sound studies *The Revolutionary Rhetoric of Hamilton* reveals new insights about this beloved show for scholars of theatre studies media studies communication studies and fans alike **Merleau-Ponty's Philosophy** Lawrence Hass, 2008 A clear and

comprehensive introduction to the thought of French philosopher Maurice Merleau Ponty **A Revolution of Perception?** Ingrid Gilcher-Holtey,2014-08-01 The year 1968 marked the climax of protests that simultaneously captured most industrialized Western countries The protesters challenged the institutions of Western democracies confronting powerful established parties and groups with an opposing force and public presence that negated traditional structures of institutional authority and criticized the basic assumptions of the post war order Exploring the effects the protest movement of 1968 had on the political social and symbolic order of the societies they called into question this volume focuses on the consequences and echoes of 1968 from different perspectives including history sociology and linguistics **Shelley and the Revolutionary Sublime** Cian Duffy,2005-10-06 Offering a genuinely fresh set of perspectives on Shelley s texts and contexts Cian Duffy argues that Shelley s engagement with the British and French discourse on the sublime had a profound influence on his writing about political change in that age of revolutionary crisis Examining Shelley s extensive use of sublime imagery and metaphor Duffy offers not only a substantial reassessment of Shelley s work but also a significant re appraisal of the sublime s role in the cultural history of Britain during the Romantic period as well as Shelley s fascination with natural phenomena **Discourses of the Arab Revolutions in Media and Politics** Stefanie Ullmann,2021-08-23 Drawing on approaches from critical discourse analysis corpus linguistics and cognitive linguistics this book critically examines metaphorical language used in global media coverage and political statements on the events of the Arab Spring The volume begins by summarising key events of the Arab Spring tracing the development of protests from Tunisia and Egypt to Libya and Syria as well as the wider impact on the region Ullmann builds on this foundation to lay out the theoretical frameworks to be applied to an extensive corpus of natural language and actual discourse highlighting Western Middle Eastern and North African perspectives which integrate theoretical work on metaphor blending theory and semantic prosodies Methodological considerations on corpus selection and different conceptualisations of politics and mass media generally and across countries are discussed with the final chapters outlining the overarching themes across metaphors in the corpus and how these metaphors were ultimately framed in the mass media and political landscape This book will be of particular interest to students and scholars interested in critical discourse analysis language and politics and corpus linguistics **Tree of Liberty** Doris Lorraine Garraway,2008 On January 1 1804 Jean Jacques Dessalines declared the independence of Haiti thus bringing to an end the only successful slave revolution in history and transforming the colony of Saint Domingue into the second independent state in the Western Hemisphere The historical significance of the Haitian Revolution has been addressed by numerous scholars but the importance of the Revolution as a cultural and political phenomenon has only begun to be explored Although the path breaking work of Michel Rolph Trouillot and Sibylle Fischer has illustrated the profound silences surrounding the Haitian Revolution in Western historiography and in Caribbean cultural production in the aftermath of the Revolution contributors to this volume argue that while suppressed and disavowed in some quarters the Haitian Revolution

nonetheless had an enduring cultural and political impact particularly on peoples and communities that have been marginalized in the historical record and absent from the discourses of Western historiography Tree of Liberty interrogates the literary historical and political discourses that the Revolution produced and inspired across time and space and across national and linguistic boundaries In so doing it seeks to initiate a far reaching discussion of the Revolution as a cultural and political phenomenon that shaped ideas about the Enlightenment freedom postcolonialism and race in the modern Atlantic world Contributors A James Arnold University of Virginia Chris Bongie Queen s University Paul Breslin Northwestern University Ada Ferrer New York University Doris L Garraway Northwestern University E Anthony Hurley SUNY Stony Brook Deborah Jenson University of Wisconsin Madison Jean Jonassaint Syracuse University Valerie Kaussen University of Missouri Ifeoma C K Nwankwo Vanderbilt University

Discourses and Counter-discourses on Europe Manuela Ceretta, Barbara Curli, 2017-01-12 The European Union plays an increasingly central role in global relations

from migration to trade to institutional financial solvency The formation and continuation of these relations their narratives and discourses are rooted in social political and economic historical relations emerging at the founding of European states and then substantially augmented in the Post WWII era Any rethinking of our European narratives requires a contextualized analysis of the formation of hegemonic discourses The book contributes to the ongoing process of rethinking the European project identity and institutions brought about by the end of the Cold war and the current economic and political crisis Starting from the principle that the present European crisis goes hand in hand with the crisis of its hegemonic discourse the aim of the volume is to rescue the complexity the richness the ambiguity of the discourses on Europe as opposed to the present simplification The multidisciplinary approach and the long term perspective permits illuminating scope over multiple discourses historical periods and different languages including that of the European institutions This text will be of key interest to scholars and students of European Union politics European integration European History and more broadly international relations
