Percorsi di sociologia relazionale Paolo Terenzi, 2012 **Social Science, Philosophy and Theology in Dialogue**

Pierpaolo Donati, Antonio Malo, Giulio Maspero, 2019-04-09 This volume explores the potential of employing a relational paradigm for the purposes of interdisciplinary exchange Bringing together scholars from the social sciences philosophy and theology it seeks to bridge the gap between subject areas by focusing on real phenomena Although these phenomena are studied by different disciplines the editors demonstrate that it is also possible to study them from a common relational perspective that connects the different languages theories and perspectives which characterize each discipline by going beyond their differences to the core of reality itself As an experimental collection that highlights the potential that exists for cross disciplinary work this volume will appeal to scholars across a range of field concerned with critical realist approaches to research collaborative work across subjects and the manner in which disciplines can offer one another new insights

Sociological Realism Andrea Maccarini, Emmanuele Morandi, Riccardo Prandini, 2011-03-28 Sociological Realism presents a clear and updated discussion of the main tenets and issues of social theory written by some of the top scholars within the critical realist and relational approach It connects such approaches systematically to other strands of thought that are central in contemporary sociology like systems theory and rational choice theory Divided into three parts social ontology sociological theory and methodology each part includes a systematic presentation a comment and a wider discussion by the editors thereby taking on the form of a dialogue among experts This book is a uniquely blended and consistent conversation showing the convergence of European social theory on a critical realist and relational way of thinking This volume is

extremely important both for teaching purposes and for all those scholars who wish to get a fresh perspective on some deep dynamics of contemporary sociology *Dipendenza e cultura delle relazioni* Daria Panebianco, 2020-05-26T00:00:00+02:00 La dipendenza in tutte le forme in cui si esprime un fenomeno complesso la cui interpretazione deve rimandare alla struttura nella quale i soggetti sono incastonati e ai loro legami sociali Coloro che agiscono comportamenti di dipendenza infatti sono persone isolate che soffrono una marcata vulnerabilità relazionale e hanno reti di supporto precarie L obiettivo di questo volume quello di ripensare la dipendenza attraverso il ricorso ai paradigmi della social network analysis e del capitale sociale in quanto entrambi consentono di focalizzarsi sulle componenti del contesto sociale in cui il comportamento additivo si esprime e si consolida Si riflette su come l utilizzo di un approccio di rete nel processo di recupero possa generare una nuova cultura di addiction che cambia il modus operandi dei professionisti che si adoperano in questo campo A Babele non si parla di affido. Studio di sociologia dei diritti umani Iagulli, 2013 **Engaging with the World** Margaret Scotford Archer, Andrea Maccarini, 2013 This title reflects the general theme of the 2010 IACR annual conference that was held in Padova Italy the aim of which was to provide a fresh view on some cultural and structural changes involving Western societies after the world economic crisis of 2008 from the point of view of Critical Realism Global society is often regarded as disrupting identities and blurring boundaries one which entails giving up ideas of structure and fixity Globalization supposedly introduces a liquid era of fluidity where everything is possible and anything goes Nevertheless its current dynamics are developing into a harder reality wars economic crisis the haunting risk of pandemics the ever worsening food supply crisis and the environmental challenge These social facts call for a dramatic shift in the optimistic cosmopolitan mood and the thought that we can build and rebuild ourselves and our world as we please at least for the most developed countries The challenges we face produce new forms of social life and individual experience They also require us to develop new frameworks to analyze emergent contexts institutional complexes and morphogenetic fields and new ways to understand human agency and the meaning of emancipation The book broadly falls into three parts The first Social Ontology and a New Historical Formation deals with mainly social ontological issues insofar as they are connected to social scientific and public issues in the emerging society of the XXI century The second Being human and the adventure of agency is concerned with the way human beings adapt to the new world of our times and comes up with innovative models of agency and socialization The third The constitutionalization of the new world explores critical realist perspectives as compared to system theoretical ones on the issue of global order and justice In all of this the challenge is to engage with this new world in a meaningful way a task for which a realist mind set is badly needed Critical realism provides a strong theoretical framework that can meet the challenge and the book explores its contribution to making sense of and coming to terms with this historical formation **Sociologia n. 3/2008** Andrea Bixio, 2016-03-20T00:00:00+01:00 Il capitale sociale Pierpaolo Donati Luigi Tronca Il capitale sociale Introduzione Michel Fors I livelli di analisi del capitale sociale Luigi Tronca Strategie di misurazione del capitale sociale Pierpaolo Donati Famiglia scuola e capitale sociale nei processi di socializzazione una ricerca empirica John Field Learning Transitions in the Adult Life Course agency identity and social capital In memoriam Note Recensioni **Il traguardo dell'adozione e le sue sfide.
