Politics, Satire, and Historical Consciousness in Contemporary American Novel Olena

Boylu, 2022-11-01 What is the role of the historical and political novel in our lives Is it just a story from the past or does it shape our historical consciousness Can we rely on the information within this type of fiction According to many historicists we cannot However we can also question numerous ideologically shaped history books that look more like fiction than scientific sources Hence historically and politically loaded fiction has an equal chance in the formational process of our historical consciousness Besides through satire and humor which a scientist omits in a history book a novelist manages to affect its reader on a different scale and leave a deeper trace As E L Doctorow once stated The historian tells you what happened The novelist will tell you what it felt like Hence this study analyzes several significant concepts such as historiography historical consciousness power its elements and the way it operates traces major characteristics of historical and political fiction and determines the role of satire within them Eventually through the analysis of several prominent contemporary novels it provides vivid examples of all the concepts that have been discussed

How to Revise a True War Story John K. Young, 2017-01-15 You can tell a true war story if you just keep on telling it Tim O'Brien writes in *The Things They Carried* Widely regarded as the most important novelist to come out of the American war in Viet Nam O'Brien has kept on telling true war stories not only in narratives that cycle through multiple fictional and non-fictional versions of the war's defining experiences but also by rewriting those stories again and again Key moments of revision extend from early drafts to the initial appearance of selected chapters in magazines across typescripts and page proofs for first editions and through continuing post-publication variants in reprints *How to Revise a True War Story* is the first book-length study of O'Brien's archival papers at the University of Texas's Harry Ransom Center Drawing on extensive study of drafts and other prepublication materials as well as the multiple published versions of O'Brien's works John K. Young tells the untold stories behind the production of such key texts as *Going After Cacciato* *The Things They Carried* and *In the Lake of the Woods* By reading not just the texts that have been published but also the versions they could have been Young demonstrates the important choices O'Brien and his editors have made about how to represent the traumas of the war in Viet Nam The result is a series of texts that refuse to settle into a finished or stable form just as the stories they present insist on being told and retold in new and changing ways In their lack of textual stability these variants across different versions enact for O'Brien's readers the kinds of narrative volatility that is key to the American literature emerging from the war in Viet Nam Perhaps in this case you can tell a true war story if you just keep on revising it
