Pompeii The Living City:

Pompeii Alex Butterworth, Ray Laurence, 2006-10-03 Draws on recent archaeological and historical research to offer a vivid portrait of the city of Pompeii during the twenty five years leading up to the eruption that destroyed it *Pompeii's Ashes* Eric Moormann, 2015-03-10 Although there are many works dealing with Pompeii and Herculaneum none of them try to encompass the entire spectrum of material related to its reception in popular imagination *Pompeii's Ashes* surveys a broad variety of such works ranging from travelogues between ca 1740 and 2010 to 250 years of fiction including stage works music and films The first two chapters provide an in depth analysis of the excavation history and an overview of the reflections of travelers The six remaining chapters discuss several clearly defined genres historical novels with pagan tendencies and those with Christians and Jews as protagonists contemporary adventures time traveling mock manuscripts and works dedicated to Vesuvius *Pompeii's Ashes* demonstrates how the eternal fascination with the oldest still running archaeological projects in the world began developed and continue until now ***Pompeii's Living Statues*** Eugene J. Dwyer, 2010 An intriguing look at contemporary views regarding the casts of victims from Mt Vesuvius eruption *A Cultural Encyclopedia of Lost Cities and Civilizations* Michael Shally-Jensen, Anthony Vivian, 2022-11-11 A stimulating volume for readers interested in lost cultures or climate change's role in the past and present Library Journal This volume explores the span of human history and plenty of prehistory searching out prominent and fascinating examples of cities or broader civilizations that shifted from a position of influence to a lack thereof The accelerating threat of climate change challenges us to analyze our own communities relationships with the wider world and to contemplate their very existence This single volume cultural encyclopedia examines lost cities and civilizations from every region of the globe and dated throughout human history Arranged alphabetically the compilation allows both students and general readers easy access to detailed entries on specific lost cities and civilizations Throughout the geographically and chronologically diverse entries such themes as colonization migration and especially climate change are developed and analyzed Supplementing the main entries are sidebars detailing mythological cities and Investigative Boxes examining present day cities on the brink of extinction These round out the book's focus on disappearing cultural centers and reveal the robust relevance this material has to a world facing the crisis of climate change *In Stone and Story* Bruce W. Longenecker, 2020-02-18 This beautifully designed full color textbook introduces the Roman background of the New Testament by immersing students in the life and culture of the thriving first century towns of Pompeii and Herculaneum which act as showpieces of the world into which the early Christian movement was spreading Bruce Longenecker a leading scholar of the ancient world of the New Testament discusses first century artifacts in relation to the life stories of people from the Roman world The book includes discussion questions maps and 175 color photographs Additional resources are available through Textbook eSources *Pompeii* Alex Butterworth, 2016 ***The Original Secession Magazine*** , 1888 *Multisensory Living in Ancient Rome* Hannah Platts, 2019-11-28

Classicists have long wondered what everyday life was like in ancient Greece and Rome. How, for example, did the slaves, visitors, inhabitants, or owners experience the same home differently? And how did owners manipulate the spaces of their homes to demonstrate control or social hierarchy? To answer these questions, Hannah Platts draws on a diverse range of evidence and an innovative amalgamation of methodological approaches to explore multisensory experience: auditory, olfactory, tactile, gustatory, and visual in domestic environments in Rome, Pompeii, and Herculaneum for the first time from the first century BCE to the second century CE. Moving between social registers and locations from non-elite urban dwellings to lavish country villas, each chapter takes the reader through a different type of room and offers insights into the reasons, emotions, and cultural factors behind perception, recording, and control of bodily senses in the home, as well as their sociological implications. *Multisensory Living in Ancient Rome* will appeal to all students and researchers interested in Roman daily life and domestic architecture.

The City in History Lewis Mumford, 1961. Covers the city's development from ancient times to the modern age.

The Living Age, 1921.

A Companion to Roman Italy Alison E. Cooley, 2016-01-05. A Companion to Roman Italy investigates the impact of Rome in all its forms: political, cultural, social, and economic upon Italy's various regions, as well as the extent to which unification occurred as Rome became the capital of Italy. The collection presents new archaeological data relating to the sites of Roman Italy. Contributions discuss new theories of how to understand cultural change in the Italian peninsula. Combines detailed case studies of particular sites with wider-ranging thematic chapters. Leading contributors not only make accessible the most recent work on Roman Italy but also offer fresh insight on long-standing debates.

Life and Death in the Roman Suburb Allison L. C. Emmerson, 2020-05-24. Defined by borders both physical and conceptual, the Roman city stood apart as a concentration of life and activity that was legally, economically, and ritually divided from its rural surroundings. Death was a key area of control, and tombs were relegated outside city walls from the Republican period through Late Antiquity. Given this separation, an unexpected phenomenon marked the Augustan and early Imperial periods: Roman cities developed suburbs built up areas beyond their boundaries where the living and the dead came together in densely urban environments. *Life and Death in the Roman Suburb* examines these districts, drawing on the archaeological remains of cities across Italy to understand the character of Roman suburbs and to illuminate the factors that led to their rise and decline, focusing especially on the tombs of the dead. Whereas work on Roman cities has tended to pass over funerary material, and research on death has concentrated on issues seen as separate from urbanism, Emmerson introduces a new paradigm, considering tombs within their suburban surroundings: of shops, houses, workshops, garbage dumps, extramural sanctuaries, and major entertainment buildings in order to trace the many roles they played within living cities. Her investigations show how tombs were not passive memorials but active spaces that facilitated and furthered the social and economic life of the city, where relationships between the living and the dead were an enduring aspect of urban life.

Buried City, Unearthing Teufelsberg Benedict Anderson, 2017-07-06. Cities are built over the

remnants of their past buried beneath their present We build on what has been built before whether over foundations formalising previous permanency or over the temporal occupations of ground But what happens when you shift a city when you dislodge its occupation of ground towards a new ground bury it and forget it Focusing on Berlin's destruction during World War II and its reconstruction after the end of the war this book offers a rethinking of how the practices of destruction and burial combine to reform the city through geography and how burying a city is intricately tied to forgetting destruction ruination and trauma Created from 25 million cubic meters of rubble produced during World War II Teufelsberg Devil's Mountain is the exemplar of the destroyed city Its critical journey is chronicled in combination with Berlin's seven other rubble hills and their connections to constructing forgetting through burial Furthermore the book investigates Berlin's sublime relation to Albert Speer's urban vision to rival the ancient cities of Rome and Athens through their now shared geographies of seven hills Finally there is a central focus on the role of the citizens who cleared Berlin's streets of rubble and the subsequent human relationships between people and ruins This book is valuable reading for those interested in Architectural Theory Urban Geography Modern History and Urban Design *Littell's Living Age*, 1923 *Eclectic Magazine, and Monthly Edition of the Living Age* John Holmes Agnew, Walter Hilliard Bidwell, 1878 **The Literary Review**, 2005 **To the Land of the Living** Robert Silverberg, 2015-07-28 The Hugo Award winning author returns to the mythical world of Gilgamesh the King in this adventurous sequel An enthralling quest The Times London The warrior king Gilgamesh part man part god is not only larger than life he is larger than death Trapped in the Afterworld a bizarre reality in which everyone who has ever died lives again only to die again and again in endless succession Gilgamesh sets out to find his lost friend Enkidu and fight his way back to the land of the living Along the way he encounters a rogue's gallery of figures from history literature and myth including H P Lovecraft and Robert E Howard and travels from the ancient city of Uruk to modern day Manhattan But the Afterworld is not so easily escaped **Naples : Past and Present** Arthur Hamilton Norway, 1922 Naples Arthur Hamilton Norway, 1927 **Naples, Past & Present** Arthur Hamilton Norway, 1905
