Los Angeles Magazine ,2000-04 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian **Delizia!** John Dickie,2008-01-08 Buon appetito Everyone loves Italian food But how did the Italians come to eat so well The answer lies amid the vibrant beauty of Italy s historic cities For a thousand years they have been magnets for everything that makes for great eating ingredients talent money and power Italian food is city food From the bustle of medieval Milan s marketplace to the banqueting halls of Renaissance Ferrara from street stalls in the putrid alleyways of nineteenth century Naples to the noisy trattorie of postwar Rome in rich slices of urban life historian and master storyteller John Dickie shows how taste creativity and civic pride blended with princely arrogance political violence and dark intrigue to create the world s favorite cuisine Delizia is much more than a history of Italian food It is a history of Italy told through the flavors and character of its cities A dynamic chronicle that is full of surprises Delizia draws back the curtain on

much that was unknown about Italian food and exposes the long held canards It interprets the ancient Arabic map that tells of pasta's true origins and shows that Marco Polo did not introduce spaghetti to the Italians as is often thought but did have a big influence on making pasta a part of the American diet It seeks out the medieval recipes that reveal Italy's long love affair with exotic spices and introduces the great Renaissance cookery writer who plotted to murder the Pope even as he detailed the aphrodisiac qualities of his ingredients It moves from the opulent theater of a Renaissance wedding banquet with its gargantuan ten course menu comprising hundreds of separate dishes to the thin soups and bland polentas that would eventually force millions to emigrate to the New World It shows how early pizzas were disgusting and why Mussolini championed risotto Most important it explains the origins and growth of the world's greatest urban food culture With its delectable mix of vivid storytelling groundbreaking research and shrewd analysis Delizia is as appetizing as the dishes it describes This passionate account of Italy's civilization of the table will satisfy foodies history buffs Italophiles travelers students and anyone who loves a well told tale **Country Life Illustrated** ,2007 *Restaurant Business* ,2001-10
