The Goldwatcher John Katz, Frank Holmes, 2008-07-08 Why did the price of gold hit record highs in 2008 Take a look at the headlines government bailouts of failed banks mortgage and credit crises rising inflation slowing growth and global insecurity In order to protect themselves from treacherous financial markets and depreciated paper currencies investors worldwide are turning to gold Gold has long been used as money and as a store of wealth but what's the source of its value Why does that value sometimes rise so high and at other times fall so low And what do we know about gold's complex and often tumultuous past that may yield clues about how it may behave in the future Gold is a side show on a world financial stage dominated by the dollar The tail can't wag the dog gold prices are affected by changes in prospects for the dollar and not vice versa With uncertain outcomes for the American and global economies gold's stateless money franchise makes this book compelling reading John Katz is a clear eyed independent strategist and analyst with an extraordinary ability to get to grips with subjects ranging from biotechnology via alternative energy to commodities and gold Uniquely for a commentator on gold he has no dogmas To assess the risks and rewards that come with owning gold he introduces opinions from an impressive range of commentators
